## **The Charge of the Faculty Committee on UF Core Curriculum**

The Faculty Committee on the UF Core Curriculum was charged by the president to provide insights on how the University of Florida Core Curriculum uniquely positions our students to live lives well lived in an increasingly disruptive age. Specifically, we are to describe the primary purpose(s) of the current UF Core Curriculum, evaluate through objective measures how effective the current UF Core Curriculum is at achieving these purposes, and consider alternative UF Core Curriculum models (e.g., dual core) including primary purposes of alternative models and objective indicators of meeting these purposes.
