Description of request	This course will provide students to an introduction to the world as viewed from a geographical standpoint and highlight the importance of geography through the use of 10 key maps. These maps will be used to 'explain everything about the world' and also serve to introduce our students to the field of geospatial analysis – a feature across our department and so potentially recruit those students with these interests into more advanced courses and GIScience. Utilizing a textbook and maps, we will work to explain & understand complex geopolitical landscapes that shape our world in an ever more complex, chaotic, & interlinked manner.

Responses

Recommended Prefix

Enter the three letter code indicating placement of course within the discipline (e.g., POS, ATR, ENC). Note that for new course proposals, the State Common Numbering System (SCNS) may assign a different prefix.

Response:
GEA

Course Level

Select the one digit code preceding the course number that indicates the course level at which the course is taught (e.g., 1=freshman, 2=sophomore, etc.).

Response:
1

Course Number

Enter the three digit code indicating the specific content of the course based on the SCNS taxonomy and course equivalency profiles. For new course requests, this may be XXX until SCNS assigns an appropriate number.

Response:
XXX

Category of Instruction

Indicate whether the course is introductory, intermediate or advanced. Introductory courses are those that require no prerequisites and are general in nature. Intermediate courses require some prior preparation in a related area. Advanced courses require specific competencies or knowledge relevant to the topic prior to enrollment.

Response:
Introductory

- 1000 level = Introductory undergraduate
- 2000 level = Introductory undergraduate
- 3000 level = Intermediate undergraduate
- 4000 level = Advanced undergraduate
- 5000 level = Introductory graduate
- 6000 level = Intermediate graduate
- 7000 level = Advanced graduate

- 4000/5000= Joint undergraduate/graduate
- 4000/6000= Joint undergraduate/graduate

**Joint undergraduate/graduate courses must be approved by the UCC and the Graduate Council)*

Lab Code

Enter the lab code to indicate whether the course is lecture only (None), lab only (L), or a combined lecture and lab (C).

Response:
None

Course Title

*Enter the title of the course as it should appear in the Academic Catalog. There is a 100 character limit for course titles. *

Response:
Prisoners of Geography: 10 Maps That Explain Everything About the World

Transcript Title

Enter the title that will appear in the transcript and the schedule of courses. Note that this must be limited to 30 characters (including spaces and punctuation).

Response:
Prisoners of Geography

Degree Type

Select the type of degree program for which this course is intended.

Response:
Baccalaureate

Delivery Method(s)

Indicate all platforms through which the course is currently planned to be delivered.

Response:
On-Campus

Co-Listing

Will this course be jointly taught to undergraduate, graduate, and/or professional students?

Response:
No

Effective Term

Select the requested term that the course will first be offered. Selecting "Earliest" will allow the course to be active in the earliest term after SCNS approval. If a specific term and year are selected, this should reflect the department's best projection. Courses cannot be implemented retroactively, and therefore the actual effective term cannot be prior to SCNS approval, which must be obtained prior to the first day of classes for the effective term. SCNS approval typically requires 2 to 6 weeks after approval of the course at UF.

Response:
Earliest Available

Effective Year

Select the requested year that the course will first be offered. See preceding item for further information.

Response:
Earliest Available

Rotating Topic?

Select "Yes" if the course can have rotating (varying) topics. These course titles can vary by topic in the Schedule of Courses.

Response:
No

Repeatable Credit?

Select "Yes" if the course may be repeated for credit. If the course will also have rotating topics, be sure to indicate this in the question above.

Response:
No

Amount of Credit

Select the number of credits awarded to the student upon successful completion, or select "Variable" if the course will be offered with variable credit and then indicate the minimum and maximum credits per section. Note that credit hours are regulated by Rule 6A-10.033, FAC. If you select "Variable" for the amount of credit, additional fields will appear in which to indicate the minimum and maximum number of total credits.

Response:
3

S/U Only?

Select "Yes" if all students should be graded as S/U in the course. Note that each course must be entered into the UF curriculum inventory as either letter-graded or S/U. A course may not have both options. However, letter-graded courses allow students to take the course S/U with instructor permission.

Response:
No

Contact Type

Select the best option to describe course contact type. This selection determines whether base hours or

headcount hours will be used to determine the total contact hours per credit hour. Note that the headcount hour options are for courses that involve contact between the student and the professor on an individual basis.

Response:
Regularly Scheduled

- Regularly Scheduled [base hr]
- Thesis/Dissertation Supervision [1.0 headcount hr]
- Directed Individual Studies [0.5 headcount hr]
- Supervision of Student Interns [0.8 headcount hr]
- Supervision of Teaching/Research [0.5 headcount hr]
- Supervision of Cooperative Education [0.8 headcount hr]

Contact the Office of Institutional Planning and Research (352-392-0456) with questions regarding contact type.

Weekly Contact Hours

Indicate the number of hours instructors will have contact with students each week on average throughout the duration of the course.

Response:
3

Course Description

Provide a brief narrative description of the course content. This description will be published in the Academic Catalog and is limited to 500 characters or less. See course description guidelines.

Response:
Introduces the ways in which international affairs can be understood through geographical factors: not just the physical landscape – the natural barriers of mountains or connections of river networks, for example, - but also climate, demographics, biogeography, environment, cultural regions, & access to natural resources. Utilizing maps, works to explain and understand complex geopolitical landscapes that shape our world in an ever more complex, chaotic, and interlinked manner.

Prerequisites

Indicate all requirements that must be satisfied prior to enrollment in the course. Prerequisites will be automatically checked for each student attempting to register for the course. The prerequisite will be published in the Academic Catalog and must be formulated so that it can be enforced in the registration system. Please note that upper division courses (i.e., intermediate or advanced level of instruction) must have proper prerequisites to target the appropriate audience for the course.

Courses level 3000 and above must have a prerequisite.
Please verify that any prerequisite courses listed are active courses.

Response:
None

Completing Prerequisites on UCC forms:

- Use “&” and “or” to conjoin multiple requirements; do not use commas, semicolons, etc.
- Use parentheses to specify groupings in multiple requirements.
- Specifying a course prerequisite (without specifying a grade) assumes the required passing grade is D-. In order to specify a different grade, include the grade in parentheses immediately after the course number. For example, "MAC 2311(B)" indicates that students are required to obtain a grade of B in Calculus I. MAC2311 by itself would only require a grade of D-.
- Specify all majors or minors included (if all majors in a college are acceptable the college code is sufficient).

- “Permission of department” is always an option so it should not be included in any prerequisite or co-requisite.
- If the course prerequisite should list a specific major and/or minor, please provide the plan code for that major/minor (e.g., undergraduate Chemistry major = CHY_BS, undergraduate Disabilities in Society minor = DIS_UMN)

*Example: A grade of C in HSC 3502, passing grades in HSC 3057 or HSC 4558, and undergraduate PBH student should be written as follows: HSC 3502(C) & (HSC 3057 or HSC 4558) & UGPBH
 *

Co-requisites

Indicate all requirements that must be taken concurrently with the course. Co-requisites are not checked by the registration system. If there are none please enter N/A.

Response:
N/A

Rationale and Placement in Curriculum

Explain the rationale for offering the course and its place in the curriculum.

Response:

Geography is a 'found discipline' at UF and this course will serve to introduce students to the impact of Geography on our world – especially as relates to Geopolitics. This course will provide students to an introduction to the world as viewed from a geographical standpoint and highlight the importance of geography through the use of 10 key maps. These maps will be used to 'explain everything about the world' and also serve to introduce our students to the field of geospatial analysis – a feature across our department and so potentially recruit those students with these interests into more advanced courses and GIScience. We have grown significantly as a unit (from around 14 faculty to 22) and so we are reviewing our curriculum within our program, developing many new courses based on specializations of new hires (such as this one) and also updating older ones. This course will be submitted for S and N Gen Eds once we have a course approved at the UCC.

Course Objectives

Describe the core knowledge and skills that student should derive from the course. The objectives should be both observable and measurable.

Response:

Learning Objectives

Students will be able to:

1. Identify and explain the main geographical features resulting in the current geopolitical landscape for each region
2. Articulate how the tools and findings of geographers are indispensable in understanding the world today
3. Analyze the ways in which geographic, cultural, economic, political, and/or social systems and beliefs mediate understandings of an increasingly connected contemporary world
4. Identify, describe, and explain the geographic, historical, cultural, economic, political, and/or social experiences and processes that characterize the contemporary world
5. Apply geographical knowledge and to interpret and evaluate geographical data

Course Textbook(s) and/or Other Assigned Reading

*Enter the title, author(s) and publication date of textbooks and/or readings that will be assigned. Please provide specific examples to evaluate the course and identify required textbooks. *

Additional readings, maps and spatial datasets will also be shared and assigned, many related to current news events and updating of the situations described in the text. All additional readings, maps, and data will be provided in Canvas for student access.

Weekly Schedule of Topics

Provide a projected weekly schedule of topics. This should have sufficient detail to evaluate how the course would meet current curricular needs and the extent to which it overlaps with existing courses at UF.

Response:

Topics:

Week 1: Introduction to Geography & GeoPolitics

Week 2: Geography as the Spatial Science - The Power of Maps and the Tradition of Cartography

Week 3: Russia

Week 4: China

Week 5: United States

Week 6: Western Europe

Week 7: Africa

Week 8: The Middle East

Week 9: India and Pakistan

Week 10: Korea and Japan

Week 11: Latin America

Week 12: The Arctic

<p>Comments</p> <p>I love the simplicity of the course--10 maps to explain the world! Perhaps an 11th map--political indicators, such as political attitudes from the World Values Survey http://www.worldvaluessurvey.org/wvs.jsp, and democratic regimes from Varieties of Democracy (V-Dem) https://www.v-dem.net/en/ might be added.</p> <p>Would be happy to cross-list if it adds some expressly political maps to critically engage.</p>
