

University Curriculum Committee Minutes

May 11, 2021

The UCC met via teleconferencing.

Members

Angela Lindner, James Babanikos, Joel Brendemuhl, Abdol Chini, Stephanie Gazda, Sujata Krishna, Steve Pritz, Alison Reynolds, Richard Scholtz, Jennifer Setlow, Alexander Sevilla, Patricia Sohn, Lauren Solberg, Joseph Spillane, Hans van Oostrom, and Katie Vogel Anderson.

Liaisons

Toby Shorey

Guests

Charles Baer, Rachel Fu, Dylan King, Flora Noel, Jennifer Rhea, Phil Rollins, Frankie Tai, Stacy Wallace, Karen Whalen, and Matthew Whiles.

Welcome

Dr. Lindner began with recounting the accomplishments for the year.

- First year using ZOOM. Going forward, members will have an in person or remote option.
- New Approval paths for combination degrees.
- Quest 2 programs all updated and in the catalog except for a handful which should be approved in the meeting.
- Set up a professional curriculum committee task force.
- First permanent Quest 1 and Quest 2 courses.

Dr. Lindner cited this as the most productive year in her tenure, which was lauded due to this also being a year affected by the pandemic.

For the Fall:

- Discussion of the syllabus
- Academic Calendar discussion
- (Not) GatorSafe 2.0 pilot which will allow students to provide course feedback
- A number of legislative bills will impact the committee
- Contact hours
- Policy audit results

1. [Approval of minutes of the March 2021 meetings.](#) | Dr. Lindner

Approved with request to change ZOOM identification to full names.

2. Update from the Faculty Senate. | Dr. Haddad

New Dept of Physical Medicine and Rehabilitation was approved.

Semester Plans | Quest 2

- Programs

Eight recommended for conditional approval; the remainder have been approved in advance. Mostly this involves needing catalog copy. Biomedicine also needs to submit catalog copy but is not yet at the UCC level.

Approved as recommended.

Programs

3. [Proposed change to UF/IFAS Soil and Water Sciences Department](#) | 16181 |

Dr. Whiles said that the proposed name change would provide an updated and more accurate title that reflects the changes in the department over the years. The new name will be 'ecosystem.'

Conditionally approved pending a consult with Engineering.

4. [Proposed changes to Doctor of Pharmacy curriculum](#) | 15999

Dr. Whalen presented a detailed document and involved the merging of two courses into one.

5. [Proposed changes to NWSA Composition Specialization Curriculum, effective Summer 2021](#). | 14378

Dr. Setlow said that this request would address eight credits that are taken before admission to the program. To correct this, two credits need to be removed from the program total. This would ensure that the requisite 60 credits would be taken as an upperclassman.

Conditionally approved to reflect the reduction of credits to two instead of three.

Academic Assessment Committee

6. Notice of items from the Academic Assessment Committee (information only).

- None | Meeting held on the same day.

University Curriculum Committee Program and Course Recommendations

[May 11, 2021]

Program Recommendations

3. Proposed change to UF/IFAS Soil and Water Sciences Department

[R]

- <https://secure.aa.ufl.edu/Approval/reports/16181>
- **Summary:**
 - Requesting to change the name of the UF/IFAS Soil and Water Sciences Department to the Department of Soil, Water, and Ecosystem Sciences.
- **Comments:**
 - Requested a consultation from ESSIE (Environmental Engineering and Coastal Engineering programs)

4. Proposed changes to Doctor of Pharmacy curriculum, effective Summer 2021. **[CA]**

- <https://secure.aa.ufl.edu/Approval/reports/15999>
- **Summary:**
 - Combining two courses PHA 5755 Principles of Medical Microbiology, Immunology, and Virology (2 credits) and PHA 5782C Patient Care 2 Introduction to Infectious Disease and Hematology/Oncology (4 credits) - into a single 6-credit hour course, and adjusting curriculum to reflect changes.
- **Comments:**
 - Pending approval of credit change in request #15997, increase the credit hours from 4 to 6 for PHA 5782C.
 - Will PHA5755 be terminated?
 - The changed second-year curriculum provided shows a 6-week PHA5782C course as 4 credit hours. Shouldn't this be noted as a 6-hour course?

5. Proposed changes to NWSA Composition Specialization Curriculum, effective Summer 2021. **[A]**

- <https://secure.aa.ufl.edu/Approval/reports/14378>
- **Summary:**
 - Propose to reduce the required credits for Applied Instrument Lessons from 6 to 3 total Applied Instrument Lesson credits. National

Association of Schools of Music require NWSA Composition students to take at least 4 semesters in Applied Instrument Lessons combined, at the lower and upper levels. The proposed changes will meet this requirement.

 - [None](#)

10. New Undergraduate Certificates

Recreation Resources Management [A]

- <https://secure.aa.ufl.edu/Approval/reports/15547>
- Summary:
 - Establish new 15 credit certificate which prepares students to create and manage nature-based recreational opportunities. Includes management of recreational features and infrastructure, as well as education through programming. Graduates will be prepared to work for public agencies managing land which provides recreational opportunities, as well as private entities providing recreational opportunities such as guide services
- Comments:
 - [Obtained requested consult.](#)

Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management [R][CA]

- <https://secure.aa.ufl.edu/Approval/reports/15323>
- Summary:
 - Establish a 9 credit certificate which will train students in the applications of artificial intelligence & data analytics in the tourism, hospitality and event industries. Students will learn about AI trends, analytic skills, machine learning concepts, technology applications, and issues in the industries. They will also have the opportunity to gain specialized knowledge and practices in areas such as spatial analyses, data mining and social data, smart tourism design in cities, attractions and theme parks.
- Comments:
 - ~~LEI 4905 is an independent study course with a different way to compute contact hours than a traditional lecture-based course (see below). This has implications for how faculty maximum effort is computed.~~
<https://ir.aa.ufl.edu/data-applications/academicactivitiesreporting/assigning-contact-hours/>
Individual Study Courses
Undergraduate individual study courses are managed by departments and

will continue to be manually entered and tracked. Departments are responsible for communicating course information to AAR Coordinators for entry into the AAR System.

Head count hours for individual study courses (course numbers: 4905, 6905, 6971, 7979, 7980) are calculated by dividing the contact total by 2 with the result being the head count contact hour for the course. For example, in section 7980, there are four students enrolled. The total contact hours for the section would be 2, or 0.5 per student.

- ~~The catalog description for this section of LEI 4905 states: Offered upon request to meet special interests not adequately provided in other courses, such as Multidisciplinary Perspectives of Gerontology and Health and Physical Aspects of Aging.~~
- ~~A traditional, lecture-based course with a permanent number will need to be created and approved for this certificate.~~
- ~~In the short-term, this course should be offered in a section of a rotating topics 4930 or other appropriate number as guided by the Florida SCNS:~~

11. Changes to Undergraduate Certificates

Family Life Educator [~~CA~~][A]

- <https://secure.aa.ufl.edu/Approval/reports/15857>
- Summary:
 - Termination of certificate due to confusion amongst students between UF certificate and National Certification.
- Comments:
 - ~~Are there any non-FYCS students currently pursuing the certificate? [We do not have any non-FYCS students currently pursuing the certificate. Email, 5/5/21]~~
 - ~~How many students are currently pursuing the certificate? When will the last student complete the certificate? [As for students in the program, we do have a small group who will graduate in the next academic year. We would be okay with cancelling after Spring 2022 to ensure they receive the~~

UF Certificate. We will internally take care of student interest moving forward and how they can apply for the National Certificate which is what they need to work in the field rather than the UF certificate.]

13. Changes to Professional Certificates

Driver Rehabilitation Therapy [CA]

- <https://secure.aa.ufl.edu/Approval/reports/15898>
- **Summary:**
 - **Removing research component from certificate:**
 - **OTH 6151 Applied Research in Driver Rehabilitation Therapy (4 credit hours)**
 - **OTH 6152: Independent Study 1 for Research in Driver Rehabilitation Therapy (1 credit hour)**
 - **OTH 6154: Independent Study 2 for Research in Driver Rehabilitation Therapy (2 credit hours)**
- **Comments:**
 - **Please provide more information/rationale regarding why the research components are being removed from the certificate. [A full program evaluation was completed following the graduation of the first cohort of the DRT professional students. The department critically examine the DRT program by collecting and analyzing information about the program's activities, characteristics, and outcomes. Data were collected from students, faculty and administrators directly involved in the program. The results allowed department administrators to make judgments about the program, improve its effectiveness, and inform programming decisions. Results from the evaluation indicated strong support for removing the research courses from the program. Data revealed that the curriculum provides adequate knowledge about evidence-based assessment techniques from the program without the need for training on conducting independent research. In other words, graduates of the DRT professional certificate are not required to conduct independent research, but rather identify and synthesize existing research. This is already accomplished within other program courses (OTH 6150 - Foundations, Models, and Theories in Driver Rehabilitation Therapy and OTH 6153 -Screening, Assessment, Evaluation, and Intervention in Driver Rehabilitation Therapy).]**
 - **“We are also increasing OTH 6155 On-site Skills and Competency Training and Testing in Driving Rehabilitation Therapy from 2 credits to 3 and reducing OTH 6156 Seminars in Driving Rehabilitation Therapy from 3 credits to 2.” OTH6155 is listed on the certificate web site as 3 credit hours already (**

[competency/](#)). Has the increase in credit requirement already been put into place (at least on the web site)? Is this course a variable credit course?

- Is OTH 6156 a variable credit course allowing a decrease to 2 credit hours for the certificate?
 - It does appear on the certificate’s web site that these requested changes have already been publicized (<https://drt.ot.php.ufl.edu/prospective-students/curriculum/>). This seems to be prematurely advertising the certificate changes prior to approval by the UCC.

 - ~~How will participation/attendance be assessed?~~ [There are several ways in which students can fulfill participation/attendance requirements:
 - Answering a question or contributing to large class discussion
 - Contributing to small group discussions
 - Taking and submitting notes for small group discussion
 - Volunteering to participate in an "on-your-feet" activity (i.e., reading out loud from a scene, acting in an improvisation, stepping in as an audience member in a Forum Theatre scenario)
 - Responding to Canvas surveys about class progress and participation self-assessment

- Contributing to class discussion board on Canvas (sharing links, articles, videos that connect to class material) email, 5/3/21]
- ~~Will the instructor assign one of the 3 topics submitted by students for each student's presentation? Same question for the playwright's paper and playwright's day.~~ [Students have the opportunity in the first week of the semester to indicate their top three choices of presentation topic, as well as their top three choices of play/playwright. The instructor reviews the selections and then assigns one of the choices for the presentation and one for the play/playwright. (This has worked well so far - each student has been able to present on their first or second choice). I see that I have this noted in the syllabus under 50 Playwrights, but not under the Presentation Assignment.]
- ~~Read and Respond is worth 25% of grade; how much are each of the submissions worth?~~ [There are a total of 13 R&R required. The first is worth 1%, with the remaining 12 worth 2% each, for a total of 25%.]
- ~~Will group members be assigned the same grade on the final group project, or can group members receive different grades?~~ [It is possible for group members to receive different grades on the final project, depending on how well their contribution fulfills the elements of the grading rubric.]

Law

- A. LAW 6XXX – Bridge to Practice: **[R][A]**
- <https://secure.aa.ufl.edu/Approval/reports/16143>
 - Comments:
 - ~~Please correct typos in Course description – “connect tie”, “stuy”, “Bride to Practice”~~
 - ~~There appears to be a discrepancy between listed credit options, is Semester to Practice 4-10 credits, not 6-10? [Updated to be 6-10]~~
 - ~~Please provide weekly schedule of topics [The purpose of this course is to oversee student externships in the semester in practice – topics will vary based on student placement experience 5/10/21]~~
 - ~~Online group chats – Group D will meet in person, while Groups A-C will meet on Zoom. How will the instructor determine which group students are assigned to? [Group D will be for students residing in Gainesville]~~
 - ~~The online group chats section also states there are 3 meetings, but only 1 date/time slot is provided. With what frequency will these groups meet? [Every 3 to 4 weeks]~~

- ~~Is the grade for this course based off performance in a separate course?~~ [The grade for this course will take into account performance in the semester in practice externship]
- ~~One of the student rules is “I understand that I must observe restrictions mandated by confidentiality and privilege when describing my work to my Faculty Supervisor.” Given that students in in this course and in Bridge to Practice have to discuss/reflect on their cases, will students receive instruction on how to satisfy course requirements (in other words, provide enough information to assess the student) while still maintaining confidentiality/privilege?~~ [Yes – topics and issues may be discussed, but not personal information that would identify clients]
- ~~Students are responsible for their own “accident” insurance, per the rules; what does this refer to?~~ [Law externs are not covered by uf’s workers compensation insurance, so students are responsible for getting their own if the placement requires it]

B. LAW 6XXX – Law and Entrepreneurship: [CA]

- <https://secure.aa.ufl.edu/Approval/reports/15201>
- Comments:
 - What are the criteria for evaluating the components of the grade?
 - Would encourage a revision to the Class Attendance and participation section regarding its tone.
 - “The purpose of the quiz will be to determine that you did the reading and made a valiant effort to digest it. It is not intended to measure your mastery.” What constitutes a valiant effort to digest the material?

C. LAW 6XXX – Semester in Practice: [R][A]

- <https://secure.aa.ufl.edu/Approval/reports/16144>
- Comments:
 - ~~Course is variable credits; p. 3 UCC form it says min 6 credits, then on p. 5 says 4-10 credits. Confirm if minimum is 4 credits or 6.~~ [Minimum is 6 credits, email update 5/10/21]
 - ~~Please clarify rationale, possible typo. Is it meant to be field supervisor or filed supervisor?~~ [Field]
 - ~~Does the amount of time spent in an online course with the faculty supervisor vary depending on the number of credit hours enrolled?~~ [No]
 - ~~Does the office work time vary depending on the number of credit hours enrolled?~~ [Yes]

- Does the online course work with the faculty supervisor mentioned in this UCC form refer to the Bridge to Practice coursework? [Yes]
- Is the work with the faculty supervisor for Semester in Practice separate from the Bridge to Practice work? [No]
- One of the student rules is “I understand that I must observe restrictions mandated by confidentiality and privilege when describing my work to my Faculty Supervisor.” Given that students in this course and in Bridge to Practice have to discuss/reflect on their cases, will students receive instruction on how to satisfy course requirements (in other words, provide enough information to assess the student) while still maintaining confidentiality/privilege? [Yes – topics and issues may be discussed, but not personal information that would identify clients]
- Students are responsible for their own “accident” insurance, per the rules; what does this refer to? [Law externs are not covered by uf’s workers compensation insurance, so students are responsible for getting their own if the placement requires it]
- Approval pending clarification of this course and Bridge course and how they work in conjunction with each other. [BRIDGE TO PRACTICE IS THE FACULTY SUPERVISED DIRECTED REFLECTION/DISCUSSION OF THE SEMESTER IN PRACTICE EXTERNSHIP EXPERIENCE]

- <https://secure.aa.ufl.edu/Approval/reports/16100>
 - Comments:
 - ~~Format is on campus and online; will there be online only sections?~~
[Removed online selection. 5/3/21]
 - ~~Please provide more detail/rubric for class participation to show how it will be assessed.~~
 - ~~Syllabus needs Gator Evals information. [Submitter has responded to comments but needs to upload new syllabus –CG 5/7/21][Updated, 5/9/21]~~
 - ~~Please provide a grading scale. [Submitter has responded to comments but needs to upload new syllabus –CG 5/7/21] [Updated, 5/9/21]~~
 - ~~In syllabi, there is no distinction between undergraduate and graduate level courses. UCC form says graduate students will lead teams of undergraduate students. If graduate students are going to supervise teams of undergraduates, that role needs to be explained in the undergraduate syllabi (including what authority graduate students have, if they will have any role in grading the undergraduate students). Graduate level syllabi should also outline their role.~~
 - ~~Please provide specific details of different requirements for graduate v undergraduate. [As team leader they have responsibilities and research expectations as stated in the updated syllabi – this is like a lead architect vs. a junior architect – one has more experience and knowledge and they bring that to bear on the project. They are expected to perform higher~~

level tasks based on greater foundational knowledge and research- for example – lighting calculations]

- ~~Please provide detail regarding what the Lab component is for this course.~~
[The lab component is different than the lecture and discussion components— during lab sessions student teams work together in the classroom on the project- think of it as a design studio where work is being created-this time is overseen by the instructor to monitor progress, offer critical analysis and serve as a resource to the team as both an experienced creator and as a technical expert. This is an added value that the teams do not have outside of the class. As design in an iterative process, thoughtful intervention by the instructor is critical to creative development.]
