

Establishing University-wide Employment Milestones/Recognitions for Faculty

The Welfare Council is enthusiastic about researching existing college-level awards and recognitions related to employment milestones and developing best practices for implementation university wide. The goal for 2023-2024 is to identify more meaningful, equitable, and uniform ways to recognize accomplishment, service, and long employment at UF. These standards, the council believes, will contribute to goodwill and a positive culture. Additionally, the costs are less than replacing faculty salaries.
