

# Warrington College of Business Collaboration Opportunities

Saby Mitra  
Dean

The logo for the Warrington College of Business, featuring the text 'WARRINGTON COLLEGE of BUSINESS' in a white box with a black border. The word 'WARRINGTON' is in all caps, 'COLLEGE' is in all caps, and 'of BUSINESS' is in a smaller font with a lowercase 'of'.

**WARRINGTON** COLLEGE *of* BUSINESS

# Warrington College of Business

## Selected Collaborations

### Current

#### Bachelor of Arts in Business Administration

The Bachelor of Arts in Business Administration degree program combines core business courses with area of specialization courses offered by other UF departments. Students can choose an area of specialization from over 70 disciplines, including journalism, foreign languages, communications, travel and tourism, Pre-Law, and Pre-Health.

Current enrollment: 1461

#### Combined Undergraduate and Specialized Master's Programs

If admitted, juniors & seniors in other colleges can enroll in MS courses – 12 credits will count towards both undergraduate and MS degrees

Current non-business undergrad enrollment: 150

#### Career Focused Minors in WCB

Minors in accounting, business, entrepreneurship, information systems, professional selling, real estate, retailing and wealth management provide business fundamentals to non-business students

### Emerging

#### FinTech Cluster with HWCOE, WCB and LAW

FinTech is an emerging area of importance for Florida. UF is hiring 8 faculty with expertise in FinTech across there colleges – 3 in WCB, 4 in HWCOE and 1 in LAW.

PhD certificate in Financial Engineering (existing)

Graduate certificate in FinTech (planned)

Undergraduate Minor in FinTech (planned)

Continuing Ed program in AI (under development)

### Future

#### UF Health Collaboration Colleges of Medicine and Pharmacy

In conversations with the Colleges of Pharmacy and Medicine for degree and research programs

##### College of Pharmacy

Joint faculty hire (approved) in AI/Analytics to focus on research on process improvements using pharmaceutical outcomes data

##### College of Medicine

Convening faculty group to focus on the analysis of health outcomes data for process improvements
