Regulation Update

Tuition Cost regulation [3.0375](#)

Background from General Counsel's Office:

The proposed amendment to UF Reg 3.0375 reflects an increase in the repeat course surcharge (the fee for when a student enrolls in a course more than twice). Given the technical nature of the amendment (set by the BOG and authorized by statute) and the fact that timing-wise it is set after the legislative session (heading into the summer), historically it has not gone before the UCRC for lighting.
