Honors Focus

Tagline: Experience the UnCommon

Pillars: Opportunity, Community, Challenge

Vision: To distinguish our program as the national leader in Honors and serve our students’ needs as the first-choice public university for aspiring scholars in the US.

To cultivate the full intellectual growth of preeminent undergraduates across disciplines on their personal journeys to achievement.

To believe that each Gator who meets their intellectual potential is a win for all – and betters our collective future.

Goal: To equip high achieving students with the knowledge, skills, and abilities to earn advanced opportunities post-graduation while concurrently fostering an affinity towards lifelong learning
Goal restated:

Help our honors students **level up** through **UnCommon Power Boosters** (yes, like in Super Mario):
