**President's Report**

**Kent Fuchs, President**

- The university took \$1M of recurrent funds to raise minimum pay to \$12/hr. All administrators supported this decision. There were 454 fulltime employees making less than \$12/hr. Of the 454, 286 were custodians, 10 senior custodians, 44 were child development teachers and 23 were groundskeepers. If the university made the minimum pay \$12.50/hr it would cost an extra \$600,000.
- UF will not ask for a tuition increase for the upcoming year.
- The President will speak about academic freedom at the State of the University Address.

**Provost's Report**

**Joe Glover, Provost**

- UF moved up one spot to #47 in the US News and World Reports listings.
- Provost's office used Academic Analytics to show how UF compares with other Universities before and after hiring faculty under preeminence. The Provost noted that there was a substantial increase. Some UF departments moved into the top 10 from preeminence hiring.

  - UF's external image
    - Sylvio Dore noted that at conferences he attends, people do not have any idea about the University of Florida or the location of Gainesville.
  - Overview of UFHealth
- Beverly Sanders asked that the process to add a major or course be streamlined.
  - Paul asked her to see if the APC can work on that issue.
