Guests
Laura Dedenbach, Tre Easterly, Kyla McMullen, Tim Sorel

Welcome

- **Approval of February Minutes** - Approved

Updates

- Update on Course Description Taskforce - Toby Shorey
- Faculty Senate Update for UCC Review of 5000 Level Courses - Voting Item for Faculty Senate
- Transition of Hamilton Center to Hamilton School for Classical and Civic Education
- Assessment Conference

Update from the Faculty Senate – Dr. van Oostrom

- Industrial Construction Engineering – New Degree – Information Item at Faculty Senate
- APC update - Earlier Opening of Course Evaluations

Updates from Academic Assessment Committee - Dr. Tolentino

https://secure.aa.ufl.edu/Approval/reports/21162 - Approved

https://secure.aa.ufl.edu/Approval/reports/21337 - Conditionally approved pending rubric for assessment method used for SLO 1-3

https://secure.aa.ufl.edu/Approval/reports/20884 - Approved

https://secure.aa.ufl.edu/Approval/reports/21119 – Conditionally approved pending clarification on SLO 1, specifically what percentage needed to meet goal.

https://secure.aa.ufl.edu/Approval/reports/21358 – Recycled due to clarification needed on rationale for program goals, more info on the assessment methods, and sample rubric.

https://secure.aa.ufl.edu/Approval/reports/21359 – recycled due to same reasons listed above + clarification on SLO 3 & 4 (oral and written communication) only being assessed in the final course. Committee found it odd due to the courses. Only assessing once not a deal breaker, but what the assessment method is could be, and no rubric was provided.

Programs

New Programs:

Design, Construction and Planning

1. New Degree - Bachelor of Urban Sciences and Planning – Approved.

Engineering

2. Proposed Creation of a New Cybersecurity Specialization for the Computer Engineering Bachelor of Science – Approved.

Hamilton Center

3. New Degree Program - American Government, History, Literature, and Law (AGHLL) - BA – Approved.
4. New Degree Program – War, Statecraft and Strategy (WSS) - BA – Approved.

Liberal Arts and Sciences

5. BA in Hebrew – Approved.

Changes to Existing Programs:

Agricultural and Life Sciences

6. UF AEC – TCH Online – Conditionally Approved. Additional request that the final COE letter be uploaded to the approval request.

Arts

7. BA Art History - Major – Approved.
8. BA Dance – Approved.
9. BA Music – Approved.
10. BA Music - Event Management – Approved.
11. BA Stage Management – Recycled.
12. BA Theatre General – Recycled.

Graduate School

Notice of items from the Graduate School (information only).

Graduate Council Meeting (2/20/25)

Concentration Closure:

The Herbert Wertheim College of Engineering closed the Geographic Information Systems concentration for the Master of Engineering (M.E.) and the Master of Science (M.S.) with a major in Civil Engineering (#13819).

Major Modifications:

The College of Liberal Arts and Sciences modified the curriculum for the Doctor of Philosophy (Ph.D.) with a major in Statistics (#20870).

The College of Liberal Arts and Sciences suspended admission to the major in Religion for the Master of Arts (M.A.) and the Doctor of Philosophy (Ph.D.) (#20807).

Degree/Major Curriculum Modification:

The College of Public Health and Health Professions modified the curriculum for the Master of Public Health (M.P.H.) degree with a major in Public Health (#20946).

New Degree

The Herbert Wertheim College of Engineering seeks to create a new degree of Master of Science with a major in Engineering Management and a concentration in Data Analytics (in-person synchronous and on-line asynchronous) out of the Jacksonville campus (#20063).

Online Modality Authorization for Master's Degree

Note to File Created: Online modality (M.A. with a Major in Economics and a Concentration in Econometric & Data Analysis) (#21026) allowing for student group to be created in SIS and an additional admission path in SLATE.

Meeting adjourned at approximately 2:40 p.m.

New Degree - Bachelor of Urban Sciences and Planning	**BA in Hebrew waiting for new courses to be approved (21296, 21272)**	
Proposed Creation of a New Cybersecurity Specialization for the Computer Engineering Bachelor of Science		
New Degree Program - American Government, History, Literature, and Law (AGHLL) – BA		
New Degree Program – War, Statecraft and Strategy (WSS) – BA		

Design, Construction and Planning

1. **New Degree - Bachelor of Urban Sciences and Planning** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/21009
    - Action:
        - ~~List STA2023 as State Core Gen Ed Mathematics~~ This information has been corrected throughout the proposal and appendices.
        - ~~A full catalog copy is required. Please look at other degrees for examples. Missing About this program and Overview~~ The About this Program & Overview & Approved Electives catalog copy has been uploaded to the request as Appendix N. Complete catalog copy consists of Appendices K, M, and N.
        - ~~Appendix C to the BOG proposal is missing. Admissions text refers to the transfer prerequisites but they are not included.~~ Appendix C has been uploaded to the request.

- ~~Approval will need to be conditional on courses under review to be approved.~~

Understood. All course requests have been submitted concurrently with the BUSP proposal in February. Course requests were submitted on February 20th. A table of the companion course requests and request numbers is included as a separate document to the proposal.

- ~~Contains ALC content that needs to go to the AAC. As there are placeholder course numbers (1XXX, 2XXX), such courses should be listed by name in the Critical Tracking, so we'll know how to update it when the courses are approved and implemented. The number of critical tracking items seems very low.~~

There are two existing courses that are awaiting course numbers through different course requests: URP1XXX, This Must Be the Place (**Request#20408**), and URP2XXX, Cities of the World (**Request# 20908 -** approved by UCC as part of GenEd course releveling on January 21, 2025. This information shows that URP3001 is being relevelled to URP2001.). The Model Semester Plan contains the full course names. Documents have been revised to show URP 2001. The Curriculum Map table has been updated to include the full course name for URP1XXX. It is my understanding that the ALC documents do not need to be filed with ACC until the new degree is approved. If I am incorrect in my understanding, please let me know. I will file the documents with ACC.

There are 40 courses in the BUSP curriculum (see Model Semester Plan), 24 of the courses are Critical Tracking courses. Critical Tracking courses constitute 60% of the total BUSP courses. The proposed BUSP seems to be consistent with other programs, based on my review. The Critical Tracking and GPA Sequence is contained in the Model Semester Plan document.
Additional:

The Proposal document has been updated to include the information above, specifically to Section V.B and V.D.

- Discussion: None.

Engineering

2. **Proposed Creation of a New Cybersecurity Specialization for the Computer Engineering Bachelor of Science** **[A]**
   - https://secure.aa.ufl.edu/Approval/reports/20504
   - Action:
   - ~~Full catalog copy needed, including Critical Tracking, Model Semester Plan, and ALC (if different from rest of major). Looks like we've got the Overview page attached to the request already, which is good. –~~ Critical Tracking and ALC are the same as the general program, but are included for completeness. Model Semester Plan and all over sections have been incorporated into the "Catalog" document,

along with edits to add specialization and general degree program to catalog website.

- ~~Overview says 9 credits required for specialization, but the track completion says 1 required course, and one additional course from a list. Should that be two courses? –~~ This was an error and has been fixed.
- Discussion: None.

Hamilton Center

3. **New Degree Program - American Government, History, Literature, and Law (AGHLL) – BA** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/21315
    - Action Items:
    - ~~After consulting with Associate Provost Gater, we learned that the Common Prereq appendix should be removed since it is not necessary to submit if the only requirement is a GPA (no courses). I apologize for suggesting the addition.~~ Done
    - Discussion Items:
    - ~~Hamilton School needs to create a section of this catalog page to indicate how students in their majors will graduate with Honors: https://catalog.ufl.edu/UGRD/academic-advising/academic-honors/#graduatingwithhonorstext~~ Done
    - ~~This does not need to go through the UCC~~ – it is a college-specific policy that needs to be created/updated with Lee.

4. **New Degree Program – War, Statecraft and Strategy (WSS) – BA** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/21317
    - Action Items:
      ~~After consulting with Associate Provost Gater, we learned that the Common Prereq appendix should be removed since it is not necessary to submit if the only requirement is a GPA (no courses). I apologize for suggesting the addition.~~ Done
    - ~~Electives need to be specified more. Are they 3000 level and up? Any discipline? If left like this, students can take 1000/2000 level leisure courses to complete the program. I am sure that is not the intent.~~This tracking requirement is consistent with other humanities DEP departments at UF and allows a more seamless experience for transfer students given that most course requirements for the major are bespoke only at UF.
      ~~Needs consults from relevant departments. Recommendation to check with the CLAS dean's office to confirm the relevant parties.~~ Both consults have been received and included.
    - Discussion Items:
    - ~~Hamilton School needs to create a section of this catalog page to indicate how students in their majors will graduate with Honors: https://catalog.ufl.edu/UGRD/academic-advising/academic-honors/#graduatingwithhonorstext~~ Done

- ~~This does not need to go through the UCC – it is a college-specific policy that needs to be created/updated with Lee~~. Done

Liberal Arts and Sciences

5. **BA in Hebrew** **[CA]**

waiting for new courses to be approved (21296, 21272)

- https://secure.aa.ufl.edu/Approval/reports/21295
- Action:
  - ~~Credits don't add up in semesters 7 & 8. Semester 7 has 12 credits, but the credit total needs to be 15. Semester 8 is one credit short of the needed 13.~~
  - ~~Also for Critical Tracking, is the 2.5 critical tracking GPA (cumulative) required after semester 6, and min. grade of C?~~ As in Overall Action Items above. As CLAS edits were submitted at the same time, a general Overall Action Items list (as follows) was provided at the beginning of the committee's correspondence:
    - Missing International designation Gen Ed course
    - ~~Verbiage above Model Semester Plan~~ **(updated)**
    - Will this mean discontinuation of specialization under Jewish Studies for Hebrew?
- Discussion:
  - ~~Can centers have Bachelor's degrees? I think they can (Latin American Studies might be an example). Semester 7 has 12 credits, but the credit total needs to be 15. Semester 8 is one credit short of the needed 13.~~
  - ~~Will the specialization in Hebrew in the JST major (JST_BA01) also be closed and replaced by this degree?~~ Response: No. That specialization is a major in Jewish Studies that includes some Hebrew language but is still very much an area studies major that includes far more than just Hebrew. The department believes both are warranted.

6. **UF AEC – TCH Online** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/20857
    - Action:
        -
    - Discussion:
        - A few courses are different; rationale indicated that some of the courses would have an in-person component. How would that work in UFO?
        - UCC form says "Agreements have been made with AOM and Soil Science Instructors to develop an in-person component for those courses not currently offered online." Letters uploaded from ANS and AOM say labs need to be offered with at least some in person component. How will this all work since this proposal is for a specialization being developed for UFO?
        - With no catalog copy attached, it is presumed that the online specialization is identical to the residential version.

Arts – Major Modifications

7. **BA Art History – Major** **[A]**

    - Action:
        - You cannot rewrite the semester plan boilerplate text, but you can add to it. Please adjust your semester plan accordingly.
        - GE total appears to come from 4 credits in ECO 2013, 2023, and MAR3023 (MAR3023 should be designated GE-S).
        - Removing CGS2531 increases credit minimum to 121. Please remove 1 credit from electives.
    - Discussion:

- None.

36. **Remove GE-Diversity: BSBA_FIN** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/20937
    - Action:
        - You cannot rewrite the semester plan boilerplate text, but you can add to it. Please adjust your semester plan accordingly.
        - Please remove 1 credit from model semester plan. This leads the total credits to tally to 121, when it needs to be 120. Please adjust your semester plan accordingly.
    - Discussion:
        - None.

37. **Remove GE-Diversity: BSBA_IST** **[CA*]**

        - Gen Ed appears to add correctly, and model plan adds to 120

Engineering

40. **Proposed 3rd Curriculum Modification to the B.S. Mechanical Engineering in the College of Engineering** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/20978
- Action:
  - ~~I do not see "Gen Ed Composition" listed in 8-sem plan, only State Core Gen Ed Composition. In Sem 1, the already-listed ENC 1101 or ENC 1102 courses serve well – just needs to be labeled "Gen Ed Composition."~~ Fixed in Model Semester Plan.

- Discussion: None.

41. **Related Mechanical Engineering changes, also consolidated into Model Semester Plan attached in item 40:**
    - Proposed Curriculum Modification to the B.S. Mechanical Engineering in the College of Engineering - 20620
    - Proposed Supplementary Curriculum Modification to the B.S. Mechanical Engineering in the College of Engineering - 20778

42. **BS – Biomedical Engineering – (Credit Reduction) Degree** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/21107
    - Action:
    - Model semester plan needs to be adjusted as there are no Quest 2 courses that satisfy 6000 words offered in Spring 25 and Fall 25.
    - There is no State Core Social and Behavioral Sciences International or 6000 words.
    - **Has credit reduction also been entered into approval system to go to the BOG?** UPDATE: We have edited the writing and international requirement specifications based on approaches used by other departments and their catalogs. Our understandings is that the credit reduction request will be entered in the system to go to the BOG upon approval. We may need to clarify to them that they need to enter this change with the correct destination of the BOG.
    - Discussion:
        - ~~Are there 6000 word Quest 2 Social and Behavioral courses?~~

43. **BS - Biomedical Engineering - (Gen Ed Change)** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/21053
    - Action:
        - Description: Replacing ENC3246 with Generic GE-C but recommend ENC2254
        - ~~Double check that Diversity is removed as well.~~ Done
    - Discussion:
        - ~~No objections – Lee should have already removed Diversity from semester 8, but make sure this is gone in the final version.~~

44. **BS -- Chemical Engineering (Reduction of Credit Hours) Degree** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/21070
    - Action:
        - Remove 2 credits of technical elective
    - Discussion:
        - No objections
45. **Chemical Engineering Curriculum change 2**
    - https://secure.aa.ufl.edu/Approval/reports/20928
    - Action:
        - Footnote changes; BME3406 moved from semester 1 to semester 2, GE-S state core moved to semester 1 from semester 2, ENC3246 to ENC2254, reduce tech electives by 2 to reduce credits from 130 to 128.
    - Discussion:
        - Does this need a BOG form to reduce credits over 120?

46. **BS - Biological Engineering** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/20989
    - Action:
        - Description: Replace ENC3246 with 2254
        - To confirm: Is this change the same for all subplans: Agricultural Production Engineering, Biosystems Engineering, Land and Water Resources Engineering?
        - ~~Catalog editor pointed out that second semester adds to 24 instead of 17 due to the "select one" areas not having credits in the table. Should those have been removed?~~ Please clarify in Model Plan how the courses in question add to 17 and 24.
    - Discussion:
        - No objections

47. **BS - Industrial and Systems Engineering** **[R]**
    - https://secure.aa.ufl.edu/Approval/reports/20968
    - Action:
        - I do not see PHY2048L or PHY2049L replacing EGN2020C. Ask Hans.
    - Discussion:
        - Removal of EGN2020C GE status seems to put GE total below 36 with no replacement.

48. **BSEE 2025-2026 Updates** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/20960
    - Action Items:
        - ~~In summer after semester 4, EEE3308C should be crossed out since it moves to semester 5.~~ Yes, that is correct. EEE3308C is moving out of the summer

- ~~Approved elective section under model plan says 6 credits depth, but model plan only lists 3 credits~~. EE Depth 1 is in semester 7. EE Depth 2 is in semester 8
- ~~CHM2095 need to use new name~~. The name matches what is in the catalog. Where can I find the new name?
- 
- Discussion Items:
  - ~~What does "Interdisciplinary elective #1-2 mean in semester six?~~ Interdisciplinary elective 1 moves to semester 5(moved EE Breadth to the sixth semester). Interdisciplinary elective 2 moves to semester 6

49. **Computer Engineering (CpE) BS - Adjustment of Catalog, Model Semester, Science Course, and Elective Requirements** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/20877
    - Action:
    - Remove EGN2020C, Add GE-C to semester 1 from semester 2, add PHY2048L, move quest 2 from semester 3 to semester 2, add PHY2049L, add 3 credit Quest 3 course summer after semester 6, reduce tech electives by 3
    - ~~No state core Bio/Phy listed, presumably it is PHY2048 –~~ Marked PHY2048 as State Core Gen Ed.
    - ~~ENC2254 is the second composition course and needs to be listed as such - Noted as second composition course~~
    - ~~Remove Diversity from summer after semester 2 –~~ Removed
    - ~~Revise Summer After Semester 6 line to remove "Quest 3" verbiage, as it is not yet active. Leave the rest of that text and it can be updated to say Quest 3 in the future (ex: CpE-Approved Experiential Learning Technical Elective). –~~ Changed all instances of "Quest 3" to "Experiential Learning"
    - Discussion Items: None.
    - Additional Note: After reviewing the Cybersecurity and CpE general updates together, along with other specialization websites, the catalog document for CpE was adjusted to accommodate the incoming specialization, in line with the catalog formatting for existing specializations.

50. **EVE curriculum change - change to Gen Ed and graphics elective** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/20984
    - Action:

51. **Gen Ed Modifications to the CSE Major Catalog Computer Science BS. in the College of Engineering** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/21013
    - Action:
      - Remove EGN2020C, add PHY2020 or CHM1025 (1 credit addition), add ENC2254 as option for ENC3246, add 0-3 Quest 3 summer after semester 6, change ethics course option in semester 7, reduce the electives by one in semester 8
    - Discussion:
      - No objections

52. **LEVEL-CIVIL ENGINEERING(BS Civil Engineering)** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/20932
    - Action:
      - ~~Revise semester 1 for correct credit total – currently program is coming to 129 credits total.~~
    - Discussion:
      - ~~Semester 3: recommend not listing specific courses as that list will constantly change. Advising can keep that list. Only list Quest 2 (Gen Ed Phys/Bio as needed, International, Writing as needed)~~
      - ~~The item listed as a discussion were passed through the system and were passed during last year cycle with the intention of starting this fall. This includes the deleting of the class.~~ Might we compromise and list the Basics Science Requirement course as a footnote rather than appearing in the table? It is a bit confusing.

  - ~~All three specializations on one request!!~~ We had two specializations in the advertising request (21292). Do you want us to split this into three separate requests?
  - We do not recommend changing to Gen Ed Communication ahead of discussions in GEC.
  - ~~We intend to bring this up at the April GEC meeting. We may label the GE-C as "Gen Ed Communication – Composition." That may not involve changing the catalog at all!~~ I changed back to Composition and uploaded. Advertising (21292) and Journalism (21284) requests had also been changed to Communication and wasn't flagged. Do you want me to change back to Composition?

  - ~~Request description indicates that "courses to remain at 51 credits within CJC". The overview provided totals 55 credits. All Gen Ed/state core requirements appear to be met once diversity has been removed (see comment below).~~ The overview provides 55 credits, including 4 in the Department of English (ENG 2300), so we are still at 51 credits in CJC.
  - ~~Please remove "with diversity" from THE 2000/ARH 2000.~~

Are all level 1 language courses either 4 or 5 credits?~~ Response: All 1XXX language courses at UF are 4 or 5 credits, but at the 2k level they can be 3-4. Beyond that they are usually 3. However, semester 3 is phrased that way because there is one beginning-level sequence (Latin) that requires 3 semesters at the 1K level, and they are 4, 4, and 3 credits, respectively. The language requirement is listed in semester one as 4-5 credits, and in semester two as 3-5 credits, which would account for all beginning sequences (except Latin), or any higher-level courses students may take to fulfill the requirement. In the third semester, it's listed as elective hours, unless the student is doing the Latin option, in which case that elective would need to be the final course in the beginning Latin sequence.

college curriculum committee and was recently approved for UCC review.

- ~~Please explain the rationale for why UT GPA is increasing.~~ We are proposing an increase in the undergraduate Critical Tracking GPA for the Communication Sciences and Disorders (CSD) program from 2.3 to 2.5. This change aligns our program's academic standards with those of other undergraduate programs within the College of Public Health and Health Professions (PHHP) and strengthens our students' preparation for the highly competitive graduate admissions process in CSD. Within PHHP, the Bachelor of Public Health (BPH) program requires a Semester 1 Critical Tracking GPA of 3.0, and the Bachelor of Health Science (BHS) program requires a 2.8 GPA. Currently, the CSD program's requirement is set at 2.3, which is noticeably lower than the other PHHP undergraduate programs. Raising our Critical Tracking GPA to 2.5 ensures consistency across PHHP and upholds our program's reputation for academic excellence while also maintaining a fair and equitable standard for all undergraduate students within our college. Additionally, admission to graduate programs in CSD is exceptionally competitive, with programs often receiving hundreds of applicants for a limited number of seats. According to the American Speech-Language-Hearing Association (ASHA), the median GPA for students admitted to speech-language pathology master's programs falls between 3.10 and 4.00. Additionally, many CSD graduate programs establish a minimum GPA requirement, with most competitive programs seeking applicants with a 3.5 or higher. By raising the Critical Tracking GPA to 2.5, we are encouraging stronger academic performance from the start, ensuring that students build a solid foundation for success in upper-division coursework and graduate applications. This change will help position our students for stronger graduate school applications, which is essential given that a master's or doctoral degree is required for professional certification and practice in speech-language pathology and audiology.

- Discussion:
  - ~~How many students would be excluded with this change?~~ The impact of this change on current and prospective students is expected to be minimal. Based on historical admissions data, nearly all students admitted to the CSD program in previous years had a Semester 1 GPA higher than 2.5. In fact, fewer than 5% of students would have been affected by this change, indicating that the vast majority of our students are already exceeding this benchmark.
  - ~~Why does it better predict success?~~ The decision to raise the GPA threshold is not only about consistency across PHHP but also about ensuring that students admitted to the upper-division program are well-prepared for its rigorous coursework. Research on student success indicates that early academic performance is a key predictor of long-term achievement. Higher GPAs correlate with better retention rates, improved comprehension of complex material, and increased likelihood

of persisting in the major and successfully graduating. A student who demonstrates the ability to maintain at least a 2.5 GPA in their first semester is more likely to excel in the program's advanced coursework, which includes intensive clinical and scientific components. This, in turn, leads to stronger graduate school applications and more competitive professional outcomes.

- ~~What is the plan to work with students in past catalog years that will require ENC3254?~~ Students have the opportunity to take approved substitutes, including ENC2305, ENC2210, and more.

  - I see Gillian's comment regarding the impact of this minor on other CLAS/CALS majors on the cover sheet. I don't see her questions addressed, however, the college has approved so I agree that the minor can be approved.
    - For you concern on Dr. Gillian Lord's comment, we actually replied it by updating the 'Impacts on Other Programs' section in the request form. Then, Dr. Lord reviewed the update and approved it. The followings are our replies just in case UCC members may want to see them.

Impacts on Other Programs
1) There is no similar minor or certificate program anywhere else on campus and so we do not see this impacting any other program - GeoAI is inherently and historically developed within Geography. It is an in-demand area and will be great for those interested students to have a full minor.
2) Since all courses are within the Geography department, the proposed minor will not increase the demand for seats in courses from other programs.
3) This minor can influence other certificate programs within our major. Specifically, students pursuing the GeoAI certificate or the Geospatial Information Analysis certificate are eligible to transition into this minor to further enhance their skillset.

- Plan for the single student who had applied but hasn't taken any courses?

The Ceramics Certificate program was discontinued for this student because they have not taken any of the prerequisite courses required to enroll in the certificate courses, and it would be impossible for them to complete the certificate within the next academic year. Due to the way our courses are scheduled (i.e., offered once per year), they would not be able to complete the required certificate courses until Spring 2028. The student was informed that the certificate has been removed from their record, and they are no longer able to pursue it. Additionally, an advising note has been added to their record.

We are not offering any Ceramics Certificate courses at this time, as we currently do not have the faculty available to teach this subject. As a result, students are unable to complete the necessary coursework to earn the certificate. As of March 1, 2025, there are no students currently enrolled

in the Ceramics Certificate program, and we have stopped all admission processing for this certificate.

- Discussion:
- There is no provision for the two students enrolled and actively pursuing the certificate who will be graduating by 2026. It is stated in the form that "The remaining two students are juniors in our MSE BS program, expected to graduate in the 2025-2026 academic year. Terminating the certificate will not impact them, as the courses they have completed for the certificate also count toward their BS degree requirements. Like other MSE juniors who have not declared a certificate, they simply will not have the option to earn one." I believe that there should be provisions in place such as a phase out until Spring 2026 so that the two students impacted are given the opportunity to complete the certificate by Spring 26.

I apologize for not clarifying this better earlier. I should have used the term "prerequisite courses" when referring to "certificate courses." These two students have not yet completed any of the required certificate courses. They have only completed prerequisite courses for the certificate. However, the prerequisite courses they completed are also required for their MSE major. Therefore, they have not taken any coursework specifically for the certificate that isn't already counting toward their BS degree requirements.
These students will need to complete all certificate-required courses in the Fall 2025 and Spring 2026 semesters as they've not started enrollment in any of the required certificate courses. As such, the cancellation of this certificate, effective Fall 2025, will not negatively impact them. However, if we must delay the cancellation of this certificate until Spring 2026, we can do so, as we still plan to offer these certificate courses during this academic year. That said, it is our preference not to do so, as we don't want to risk the issue of being unable to offer a certificate course due to someone being on sabbatical, personal leave, or resigning. Our certificate courses cover specialized subject matters, and only faculty with expertise in the field of the certificate are qualified to teach these courses. For this reason, we would prefer to move forward with canceling the certificates to avoid disappointing students if we are forced to cancel a course and are subsequently unable to offer the certificate for which they have already begun taking courses. It would have much less impact on the students to cancel the certificate now, before they have started enrolling in any of the required certificate courses.

- Discussion:
- The termination of the certificate program certainly seems reasonable and makes sense given all four reasons provided in the submission. My only worry/hesitation is that one student will remain in the program who will graduate next year. It seems that they are so close to earning the certificate based on what is written in the submission. Would it be prudent to award that last student the certificate given that they have taken almost, if not all, of the required courses? I might have misunderstood, but here is what the submitters provide:

"Six are seniors that will be earning the certificate at the end of the Spring 2025 term. The final student is a junior in our MSE BS program, expected to graduate in the 2025-2026 academic year. Terminating the certificate will not impact them, as the courses they have completed for the certificate also count toward their BS degree requirements. Like other MSE juniors who have not declared a certificate, they simply will not have the option to earn one."

    - This is copied and pasted from the syllabus, so the faculty may want to provide a rubric to the students to define superior vs above average and so on:
    - "You are evaluated based on your performance on quizzes, presentations, exercises, and other assignments. When completing your work, be mindful of what A, B, C, D and E work represent. An " A" means that your work is superior and excellent. You have fulfilled the assignment perfectly and done so in a manner that is outstanding. A " B"

means that your work is above average. Your work is similar to an A, but it falls short of being outstanding in some areas..."

- I am unclear on the scoring for performance reviews. Does 3+ mean there is a scale of 1-5? Are there any concerns about subjectivity or student disputes with grades?Response: The Urban Planning Studio 1 Review rubric (included with the submittal) allows assessment of seven critical studio components (Background and Inventory, Policy and Plan Review, Identification and Analysis of Opportunities and Constraints, Assessment of Applicable Best Practices, Values and Ethics, Communication Skills, and Group Participation) across a scale from 1 (weakest) to 5 (strongest). Each of the components contain a description of assessment and expectations for student learning. Students will be assessed with this rubric twice – once at the midterm, again at the semester end.   - Update links and honesty policy from current UF syllabus template
  - Please include office hours on syllabus when known.
  - ~~Though rubrics are mentioned in the grading policy they are not included in the syllabus.~~ I'll add the rubrics as a separate document and update the syllabus with the correct policy and some suggested office hours.
- Discussion:
  - ~~Students pick which grade they will work towards?~~

Yes, they pick the grade they are aiming for. There is vast literature about this approach. Should I include more references? I had four references listed in the syllabus and a half page or so of description of the approach of specification grading.
Students do get a lot more. I was trying to walk the fine line between overloading the committee and getting it explained. They have to watch two different videos (including one from CITT) and take a quiz on the main concepts of specification grading. I allow them to change the grade target they are aiming for through until the first major milestone. There has been a fair bit of talk about it on the discussion platform.

GRADING SCALE

Any discrepancies with points displayed in the gradebook must be brought to the attention of the instructor as soon as possible, or before the last day of class. There are no re-grades or re-submissions in this course. If there is something that you believe is incorrect, a re-evaluation of the score may be made. Please recognize that doing so will result in a stricter evaluation of your submission, which may result in additional deductions. There is **no** curve for this course and final grades will **not** be rounded up. The Make-Up Policy described above will be followed. More detailed information regarding current UF grading policies can be found on the UF website on grades and grading policies.

Also, it seems the absence policy needs to be amended, based on each trip being worth 4 class periods.~~ REPLY: The total time commitment is appropriate for the number of credit hours. Please see the 'Time commitment' section of the syllabus, which reads: *Students should plan to devote 3-4 hours per week per credit-hour, including in-class and out-of-class time. For our 3-credit course, this means 9-12 hours/week, on average. [For the 4-credit Immersion Course, the total time commitment is 36-48 hours/week for five weeks.]* ABSENCE POLICY: Missed field trips result in a 0 participation grade. I am currently teaching this class for the fifth time, and attendance has always been excellent. I am not aware of a need for additional absence policies.
  - ~~Will the course continue to be co-taught with PCB4460?~~ ~~REPLY~~: Yes. PCB4460 will continue to be used for field/biodiversity Immersion Courses that do not have their own course number. But this course will no longer use the PCB4460 course number once it is assigned its own course number.
  - ~~Should this be closed-toes shoes? wear clothed-toe shoes~~ REPLY: Thank you for catching the typo. It should say "closed-toed shoes". I corrected this in the syllabus and uploaded a new version.
  - ~~This sounds like an "L" class, or at least a "C" class (i.e. BSC4XXXC)~~ REPLY: The class has both lecture and field components. I think "C" would be appropriate. I indicated a Lab Code of "C" in the course proposal form.

  - This is copied and pasted from the syllabus, so the faculty may want to provide a rubric to the students to define superior vs above average and so on:
  - "You are evaluated based on your performance on quizzes, presentations, exercises, and other assignments. When completing your work, be mindful of what A, B, C, D and E work represent. An " A" means that your work is superior and excellent. You have fulfilled the assignment perfectly and done so in a manner that is outstanding. A " B" means that your work is above average. 206. Adding Pre-Requisite Course CIS 4914 Senior Design **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/21014
- Action Items:
  - Does this prereq really mean "CEN 3031 with a grade of C+ or higher and senior CISE standing with an approved project proposal.)"? The prereq should be updated on the form to provide clarity for the implementers.
- Discussion Items:
  - Would you be able to provide more information on Course Schedule as to what the Weekly Report entails, or a brief description as to what the Weekly Report is? Also, week 11 Mar 23-29 is blank, is there supposed to be anything?

Journalism and Communications

208. Add capstone prep as RTV4929c prereqs **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21242
- Action:
- Discussion:
  - Odd formatting of syllabus starting on page 12, wherein letters are missing from words (for example fi from office such that it reads of ce); no office hours listed in syllabus; rubrics not in syllabus but likely in Canvas.

209. Change RTV3320 to rotating topic **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/21241
- Action:
    - ~~Model semester plan in catalogue says prereq for 3320 is RTV 3101 & RTV 3511, but syllabus states that prereq is only RTV 3511.~~
    - ~~Please update the Honesty policy and links need to be updated from latest UF syllabus template.~~ Model semester plan is correct. Syllabus updated and uploaded
- Discussion Items:
    - Model semester plan is correct. Syllabus updated and uploaded.

210. Add DVO and VES as RTV3511 prereqs **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/21240
- Action:
    -
- Discussion:
- ~~We can't code courses as both prereq and coreq, so we'll code RTV 3001 as a prereq and the department can override that if they have a student who takes it as a coreq.~~ Understood. If possible, please do insert the requested text into the course, even if it is enforced programatically.

211. Change RTV3516 to two credits with 3511 prereq **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/21239
- Action:
- Please provide a syllabus. Concern about reduction in contact hours and/or course assessments need to be addressed to substantiate the reduction in credit hours. Example syllabi have been uploaded. Please note that even though there is a reduction in contact hours for this specific course, that is because we are ADDING contact hours through the addition of other classes as part of a curriculum overhaul in our production track. Currently, the track includes only 13 credits of hands-on course work, which is significantly less training than students at peer institutions. We are adding 8 credits, so students will have 21 credits of hands-on course work. To see more about the curriculum changes, see request #21243.
- Discussion Items:
    -

212. Change RTV3581 to two credits with 3511 prereq **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/21238

- Action:
  -
- Discussion:
  - ~~This course is required (as an option) in MMT - Are semester plans being submitted to change credits if a student takes this instead of a 3 credit course?~~ Indeed. Even though there is a reduction in contact hours for this specific course, we are ADDING contact hours through the addition of other classes as part of a curriculum overhaul in our production track. Currently, the track includes only 13 credits of hands-on course work, which is significantly less training than students at peer institutions. We are adding 8 credits, so students will have 21 credits of hands-on course work. To see more about the curriculum changes, see request #21243.
  - ~~Please update the Honesty policy and links need to be updated from latest UF syllabus template.~~
  - ~~Academic links and course eval links need to also be updated from syllabus template.~~ Syllabus updated and uploaded.
  -

213. Change RTV3577 to two credits with 3511 prereq **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21237
- Action:
- ~~Please update Honor Code per Syllabus Policy. Most importantly, be sure the phrase "Furthermore, you are obligated…" is removed.~~
- ~~Pleas update location of Teaching Center in Academic Resources.~~
- ~~Only 8 weeks of instruction on schedule – is this course modular?~~ It is an 8W1 or 8W2 (half-semester) course. Syllabus was updated to 8 weeks.
- Discussion Items:
- ~~Concern about overall curriculum changes for majors, as these requests for edits to RTV courses are decreasing credits.~~ They are not. Even though there is a reduction in contact hours for these specific courses, we are ADDING contact hours through the addition of other classes as part of a curriculum overhaul in our production track. Currently, the track includes only 13 credits of hands-on course work, which is significantly less training than students at peer institutions. We are adding 8 credits, so students will have 21 credits of hands-on course work. To see more about the curriculum changes, see request #21243.
- ~~The updated coreq reads "N/A." This will be interpreted as "none." RTV 3577 is in the Digital Film and Television Production semester plan as a course option, so it needs to either be removed from the list of courses to select from, or the overall option needs to be made to 2-3 credits, which would mean they need to add~~

~~another 1 credit elsewhere.~~ I don't understand this comment. RTV3577 does not have any coreq… As the reviewer points out, it is a course option. Not all students have to take it.

214. Change RTV3108 to two credits with 3511 prereq **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21236
- Action:
    -
- Discussion:
- ~~RTV 3108 is in a program page, so with a reduction in credits, there needs to be an associated program request.~~ There is (request #21243). And even though there is a reduction in contact hours for these specific courses, we are ADDING contact hours through the addition of other classes as part of a curriculum overhaul in our production track. Currently, the track includes only 13 credits of hands-on course work, which is significantly less training than students at peer institutions. We are adding 8 credits, so students will have 21 credits of hands-on course work.

215. Change RTV3330 to two credits with 3511 prereq **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21235
- Action Items:
- ~~Please list prerequisite (RTV3511) and update the honesty policy. Current language is outdated and no longer allowed. The following hyperlinks need to be updated: Disability resources, Guidance on gator eval, gator evals link, e-learning tech support, career resources center, student complaints and counseling/wellness.~~ Syllabus updated and uploaded.
- Discussion Items:
- ~~Suggest adding a brief description of each assignment type under the grading values section. If this information is in Canvas, I'd recommend adding a note indicating such~~. Note added in updated syllabus.

216. Change RTV3311 to two credits focused on sound **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21231
- Action:
    -
- Discussion:

- ~~Suggest removing the first sentence from the revised course description; describing possible occupations is not typical for course descriptions.~~
- ~~What is rationale for modifying the course rather than proposing a new one?~~ Why would we propose a new one when the existing course will never be offered? It is the same topic, so it seems more logical to ask to modify this one.
- ~~While rationale is provided, it seems to focus more on the LOs/description/title changes, rather than the change in credit numbers and prereqs. Please provide that rationale. Is this submission accompanied by a curriculum change?~~ Indeed, it is. Even though there is a reduction in contact hours for this specific course, we are ADDING contact hours through the addition of other classes as part of a curriculum overhaul in our production track. Currently, the track includes only 13 credits of hands-on course work, which is significantly less training than students at peer institutions. We are adding 8 credits, so students will have 21 credits of hands-on course work. To see more about the curriculum changes, see request #21243. Some language was added to the rationale in the form.
- ~~Syllabus says absences count from the first class meeting. What about students who did not attend the first class due to drop/add? They should not be penalized.~~ They would not be. Syllabus updated and uploaded.
- ~~Syllabus says fractional grade totals of 0.05 and above will be rounded up. Is this a typo? Does the instructor mean "0.5" and above? E.g. would an 89.05 be an A-, or would it have to be 89.5?~~ Syllabus updated and uploaded.
- ~~Syllabus says absences count from first class meeting. What is the consequence of any unexcused absences? It does not appear there is a participation grade where the students would be impacted.~~ Syllabus updated and uploaded.
- Syllabus updated and uploaded.
- ~~We can't code a course as a coreq and a prereq, so this has to be departmentally controlled. We can show the text as requested. This course is in a semester plan, so we need to make sure there is also a request to update that plan.~~
- Understood. We will go through the PERC roster at the beginning of each term to ensure students are eligible for the class. If possible, please do insert the requested text into the course, even if it is enforced programatically.

Action Items:

- ~~Please update Honesty Policy in syllabus per Syllabus Policy (link above). In particular, the phrase "Furthermore, you are obligated…" must be removed.~~

- ~~Please update the location of the Teaching Center (location in Syllabus Policy).~~
- ~~Please update Course Evaluation verbiage per Syllabus Policy.~~ Done

Discussion Items:

- To clarify, R is only recommended here due to needed syllabus updates listed above. With these updates, this recommendation can be flipped to an A for the upcoming UCC meeting. All issues with prerequisite information have been discussed and clarified. Thank you!

218. HBR 3411 Update **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/21296
- Action:
  - As this course is required by at least one major, an updated Model Semester Plan is likely needed as well. Are these HBR course updates included in the new MSP for Hebrew? Hebrew minor needs to be changed as well.
  - Although increasing the credits to 4 from 3, the contact hours are still at 3 per week.
- Discussion:
  - I am assuming the topics for weeks 4, 5, and 6 are ditto from week 3? And also for weeks 8, 9, 10, 12, 13, and 14.

222. SPA4302 Intro to Audiology and Hearing Course Modification **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21250
- Action:
  - ~~Please modify attendance language to account for unexpected excused absences, since those do not require pre-approval from instructor for make up assignments : "If a student is absent on the day of an in-class activity/assignment, he/she will receive a grade of zero for that assignment, unless the absence is pre-approved by the instructor or meets University requirements for an excused absence."~~ Updated syllabus attached.

  - None.

223. SPA4250 Introduction to Speech Disorders Course Modifications **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21249
- Action:
  - ~~Please provide a Participation rubric.~~ Updated syllabus attached.
  - ~~Please provide link to DRC site as well as link to DSO office in Accommodations section. See Syllabus Policy.~~ Updated syllabus attached.
  - ~~Please clarify the prerequisite section on the form/syllabus. Please do not use commas, you should be using "and" or "or" instead.~~ Updated in attached syllabus.
- Discussion:
  - ~~How will this prereq change impact CSD minors that can take the course?~~ CSD minors who wish to complete SPA4250 as an approved elective must first complete SPA3101 (required for the minor) and SPA3003 (approved elective for the minor). Once both of those courses are complete (or in progress), they can request placement in SPA4250.
  - ~~Course using "Payback Questions" which links into canvas - and may require a fee. Please provide more information.~~ Updated syllabus attached.

224. SPA3101 Speech Anatomy and Physiology Course Modification **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21248
- ~~Action:~~
    - ~~The syllabus states, "Excused absences are determined at the discretion of the instructor, and proper documentation MUST be provided in order for an absence to be considered excused." These are not the only reasons for an excused absence per UF Attendance policy, so committee suggests revising.~~ Updated syllabus attached.
    - ~~Missed Quiz Policy: Not always will the student be able advise you of the excuse "before" the class that day. Please refer to the UF Attendance Policy for makeups.~~ Updated syllabus attached.
    - ~~Please check hyperlinks, as they are not links. Student Conduct and Honor Codes information page 7.~~ Updated syllabus attached.

225. SPA3011 Speech Acoustics Course Modifications **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21247
- Action:
    - ~~Material and Fees section needs to be added listing the fees associated with packback subscription (maybe under the course materials and technology section that states packback is required).~~ Updated syllabus attached.
    - ~~The links listed under academic integrity and students with disabilities are invalid – please update.~~ Updated syllabus attached.
- Discussion:
    - ~~Professionalism is 5% of final grade; adding a rubric illustrating how this is determined would be helpful.~~ Updated syllabus attached.

226. SPA4004 Language Development Course Modification **[A]**

- https://secure.aa.ufl.edu/Approval/reports/21246
- Action:
    - None.
- Discussion:
    - ~~No real concerns about the prereq change but would appreciate clarification for why major with jr standing is needed, especially if a student with a minor doesn't have the same standing requirement but can register.~~ The minor serves students with a personal or academic interest in CSD courses, whereas the major serves students who intend to go on

to graduate or professional programs in communication sciences and disorders, speech pathology, or audiology. Our intention is to make sure that majors are taking these upper-division core courses after becoming familiar and comfortable with college courses at UF, ideally after completing critical tracking terms 1-4 courses, as this is a critical tracking term 5 course.

- ~~Are there any readings for this course? Only statement re: texts on the syllabus is for recommended texts. Are required readings posted on Canvas?~~ Updated syllabus attached.
- ~~Attendance appears to be required but it's unclear what the consequence is for unexcused absences.~~ Updated syllabus attached.
- ~~Last section of syllabus needs to be modified; no longer an Office of Multicultural Affairs.~~ Updated syllabus attached.

231. EEL4/5 Systems on Chip request for permanent number **[R]**

- https://secure.aa.ufl.edu/Approval/reports/20995
- Action Items:
  - Honesty policy contains the "you are obligated to report" language
  - How will missed Attendance Quizzes be handled?
  - Need to update "Academic Resources" links from UF syllabus template
  - Are both prereqs listed required or is it and/or situation?
- Discussion Items:
  - Why 4000/5000 level and not 4000/6000?
  - The course description seems short and would be strengthened with more description
  - While the graded components have a minimal description of how students will be evaluated, it would strengthen this course to provide more details of each graded component
