CERTIFICATES:

The Herbert Wertheim College of Engineering seeks to modify the curriculum for the graduate certificate in FinTech (#21888).

The Herbert Wertheim College of Engineering seeks to modify the curriculum for the graduate certificate in Sustainable and Resilient Energy Engineering (#22503)

The College of Pharmacy seeks to modify the curriculum for the graduate certificate in Forensic Death Investigation (#22268).

The College of Health and Human Performance seeks to create a graduate certificate in AI Applications in Healthcare Hospitality and Service Innovation (#22068).

The College of Health and Human Performance seeks to create a graduate certificate in AI-Driven Customer Experience & Digital Marketing (#22065).

The College of Health and Human Performance seeks to create a graduate certificate in AI-Powered Hospitality Analytics (#22064).

The College of Health and Human Performance seeks to create a graduate certificate in Culinary Innovation & Advanced Technology (#22067).

The College of Health and Human Performance seeks to create a graduate certificate in Global Franchise Leadership & Innovation (#22066).

The College of Liberal Arts and Sciences seeks to create a graduate certificate in Human Language Technology (#21921).

The College of Public Health and Health Professions seeks to create a graduate certificate in Healthcare Management (#22258).

The College of Public Health and Health Professions seeks to create a graduate certificate in Revenue Cycle Management (#22260).

The College of Public Health and Health Professions seeks to create a graduate certificate in Value-Based Care (#22261).

The College of Agricultural and Life Sciences seeks to modify the curriculum for the graduate certificate in Wildlife Forensic Sciences and Conservation (#22388).

The College of Medicine seeks to modify the curriculum for the graduate certificate in Medical Pharmacology and Therapeutics (#22677).

The Herbert Wertheim College of Engineering seeks to modify the curriculum for the graduate certificate in Engineering Education (#22586).

CONCENTRATIONS:

The College of Agricultural and Life Sciences seeks to create a concentration in Food Science (Thesis) for the Master of Science (M.S.) with a major in Food Science and Human Nutrition (#22569).

The College of Agricultural and Life Sciences seeks to create a concentration in Food Science (Non-Thesis) for the Master of Science (M.S.) with a major in Food Science and Human Nutrition (#22570).

The College of Education seeks to create a concentration in School Leadership (Certification Pathway) for the Master of Education (M.Ed.) with a major in Educational Leadership (#22232).

The College of Education seeks to create a concentration in School Leadership (Non-Certification Pathway) for the Master of Education (M.Ed.) with a major in Educational Leadership (#22233).

The College of Education seeks to create a concentration in Systems Leadership for the Master of Education (M.Ed.) with a major in Educational Leadership (#22236).

The College of Medicine seeks to modify the curriculum for the concentration in Medical Physiology and Pharmacology for the Master of Science (M.S.) with a major in Medical Sciences (#22678).

MAJORS:

The Herbert Wertheim College of Engineering seeks to modify the curriculum for the major in Environmental Engineering Sciences for the Master of Engineering (M.E.), Master of Science (M.S.), and the Doctor of Philosophy (Ph.D.) (#22269).

The College of the Arts seeks to modify the curriculum for the major in Art for the Master of Fine Arts (M.F.A.) (#22433).

The Herbert Wertheim College of Engineering seeks to modify the curriculum for the major in Engineering Education for the Doctor of Philosophy (Ph.D.) (#20562).

The College of Public Health and Health Professions seeks to modify the curriculum for the major in Environmental and Global Health and a concentration in One Health for the Master of Health Science (M.H.S.) (#22560).

The College of Public Health and Health Professions seeks to modify the curriculum for the major in Epidemiology for the Master of Science (M.S.) (#22496).

The Herbert Wertheim College of Engineering seeks to modify the curriculum for the major in Artificial Intelligence Systems for the Master of Science (M.S.) (#21129).

The College of Education seeks to modify the curriculum for the major in Program Evaluation in Educational Environments for the Master of Arts in Education (M.A.E.) (#22484).

DEGREE PROGRAMS (Modality):

The Herbert Wertheim College of Engineering seeks to create an online modality for the Master of Engineering (M.E.) with a major in Coastal and Oceanographic Engineering. (#22438).

The Herbert Wertheim College of Engineering seeks to create an online modality for the Master of Science (M.S.) with a major in Coastal and Oceanographic Engineering (#22131).

COMBINATION DEGREES:

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science (B.S.) with a major in Chemical Engineering and the Master of Science (M.S.) with a major in Applied Data Science (#22155).

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science (B.S.) with a major in Chemical Engineering and the Master of Science (M.S.) with a major in Environmental Engineering (#22156).

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science (B.S.) with a major in Chemical Engineering and the Master of Science (M.S.) with a major in Finance (#22157).

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science with a major in Environmental Engineering and the Master of Engineering (M.E.) with a major in Civil Engineering (#22034).

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science with a major in Environmental Engineering and the Master of Science (M.S.) with a major in Civil Engineering (#22033).

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science with a major in Environmental Engineering and the Master of Engineering (M.E.) with a major in Coastal Engineering (#22037).

The Herbert Wertheim College of Engineering seeks to create a combination degree program between the Bachelor of Science with a major in Environmental Engineering and the Master of Science (M.S.) with a major in Coastal Engineering (#22035).

The College of Liberal Arts and Sciences seeks to modify the combination degree program between the major in Anthropology for the Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) and the Master of Arts (M.A.) with a major in Anthropology to include the Master of Science (M.S.) with a major in Archeology (#22220).

INFORMATION ITEM / ADMINISTRATIVE ACTIONS:

The College of Pharmacy requests alignment of the departments of Pharmacotherapy and Translational Research and Pharmaceutical Outcomes and Policy as they are currently incorrectly listed in Campus Solutions as “Pharmacology and Translational Research” and “Pharmacy Outcomes and Policy” respectively (#22737).

The Department of Molecular Genetics & Microbiology (MGM) and the College of Medicine at the University of Florida (UFCOM) formally confirm their support for the transfer of the Master of Science with a major in Genetics & Genomics program to the College of Pharmacy (22757).

The College of Agricultural and Life Sciences (CALS) is requesting alignment of the program plan codes for the Interdisciplinary Ecology graduate degree programs to ensure that both the college and the academic unit (department) are reflected as CALS in the Campus Solutions records system (22799).
