- Discussion Items:
    - None

5. **BS/BLY_BS04** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22476
    - Summary: Raise critical tracking from 2.5 to 2.8 for preprofessional specialization
    - Action Items:
        - The UCC review subcommittee is requesting additional documentation / justification explaining how this benefits students success. Please include any data that may support the justification you provide.
    - Discussion Items:
        - None

6. **Updates to ENY minor** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22555
    - Summary: Request to update requirements for ENY minor (specifically, required number of credits changing from 15-16 to 15-17) due to separately requested change to ENY 4161. ENY 4161 has a pending request to be changed to ENY 4161C, which means it will change from 3 credits to 4 credits.
    - Action Items:
        - Approval is contingent on the relevant courses also being approved
    - Discussion Items:
        - None

Arts

7. **BM–Music–Performance:Voice** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22441
    - Summary: Remove 2 two-credit piano courses. Replace with Music Electives.
    - Action Items:
        - Please list the music elective courses.
        - Please provide a track changes document for the critical tracking tab in the catalog.
    - Discussion Items:
        - None

8. **BA - Digital Arts & Sciences** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/22546
    - Summary: Adjust approved electives, add option for DIG2430 and DIG3329.
    - Action Items:
        - None

DRAFT

- Discussion Items:
    - None

9. **BA Music Business and Entrepreneurship Specialization closure** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22585
    - Summary: Close specialization(s) within Bachelor of Arts in Music. Form refers to "specializations" - specifically lists only the Entrepreneurship and Event Management specialization
    - Action Items:
        - Could you please clarify which specializations this request refers to?
    - Discussion Items:
        - None.

Business

NOTE: Items 10-13 below all pertain to requests to change the universal tracking GPA to 3.0 for COB majors. All of these items are recommended for Conditional Approval.

10. **Change UT GPA for BSBA-MGT** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22473
    - Summary: Tabled for February meeting; added to March agenda per Chair
    - Action Items:
        - Per discussion with the Chair, the following actions are requested:
            - ~~Removal of previous proposal from approval system.~~ This has been completed.
            - ~~Addition of justification to approval system form (uploaded justification file should be removed).~~ This has been completed; a data analysis was also provided.
        - NOTE: Per discussion with the Chair, the approval system form needs to be updated with the 3.0 GPA.
    - Discussion Items:
        - None

11. **Change UT GPA for BSBA-MKG** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22472
    - Summary: Tabled for February meeting; added to March agenda per Chair
    - Action Items:
        - Per discussion with the Chair, the following actions are requested:

DRAFT

NOTE: Items 14-19 below all pertain to requests to update the model semester plan for COB majors due to removal of the GE designation for MAN3025 and MAR3023. Items 14 and 15 are recommended for Conditional Approval; the rest (Items 16-19) are recommended for Approval.

14. **BABA-BAG (Campus & UFO) Remove GE Designation for MAN3025 & MAR3023** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22652
    - Summary: Change elective to Civic Literacy and make GE-International course also a Social, Humanities, or Physical/Biological course.
    - Action Items:
        - The UFO model semester plan still lists MAN 3025 as a Gen Ed Social and Behavioral Sciences course.
        - Please submit the model semester plan document with track changes for BABA-BAG. It appears that the overview was submitted, but the review subcommittee must also take a look at the eight-semester track plan for the Bachelor of Arts in Business Administration-General Studies.
        - There was some confusion regarding semester three of the BA Business Administration - General Business UFO model semester plan. Could you please provide some clarity/justification as to why the elective was replaced with "Civic Literacy"?
    - Discussion Items
        - None

15. **BSBA-BAG UFO Remove GE Designation for MAN3025 & MAR3023** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22651
    - Summary: Change elective to Civic Literacy and make GE-International course also a Social, Humanities, or Physical/Biological course
    - Action Items:
        - There was some confusion regarding semester three of the BS Business Administration - General Business UFO model semester plan. Could you please provide some clarity/justification as to why the elective was replaced with "Civic Literacy" and the credit count increased from 3 to 4?
    - Discussion Items
        - None

DRAFT

24. **Mechanical Engineering: Curriculum Change** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/22451
    - Summary: Modify the Mechanical Engineering major curriculum to (1) replace MATLAB and Physics 2 Lab with Computational Linear Algebra and (2) add a list of acceptable Technical Electives.
    - Action Items:
        - None
    - Discussion Items:
        - None

25. **Biomolecular Engineering Minor: Curriculum modification** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/22405
    - Summary:
        - (1) Add the following courses to the list of technical electives: ABE 4033 Fundamentals and Applications of Biosensors; ABE 4923 Applications of Life Cycle Assessment in Biological Engineering; BSC 4467 Synthetic Biology E 4648 Biomaterials for Drug Delivery; BME 4931 Special Topics in Biomedical Engineering; BME 6330 Cell and Tissue Engineering; EGM 4585 Modeling and Control of Biomolecular Machines.
        - (2) Allow substitution of BME2402 "Introduction to Biomolecular Engineering" by BCH 4024 "Introduction to Biochemistry and Molecular Biology" or CHM 3218 "Organic Chemistry/Biochemistry 2".
        - (3) Remove BSC 2011 "Integrated Principles of Biology 2" from the list of alternatives for BME 2402.
    - Action Items:

26. **BA American Government, History, Literature, and Law- Modification to Catalog Copy and Critical Tracking** **[A]**
    - https://secure.aa.ufl.edu/Approval/reports/22644
    - Summary: Request modifies approved major for 2026-2027. It has no catalog copy currently. Originally approved on this request: https://secure.aa.ufl.edu/Approval/reports/21315.
        - Removing Elective (3000 or higher) and replacing with general electives and changing course numbers to the following (see overview for actual course numbers):

DRAFT

        - Themes in American Civilization: American Law #1
        - Themes in American Civilization: American Ideas #1
        - Themes in American Civilization: American Cultural Movements #1
        - Themes in American Civilization: American Cultural Movements #2
        - Themes in American Civilization: American Conflicts #1
        - Themes in American Civilization: American Ideas #2
        - Themes in American Civilization: American Conflicts #2
        - Themes in American Civilization: American Law #2
        - AMS 4970: AGHLL Research Seminar (Critical Tracking)
- Action Items:

28. **BA Philosophy, Politics, Economics, and Law- Modification to Catalog Copy and Critical Tracking** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/22642
- Summary: Update courses based upon course number changes from last month, moved some courses around, eliminated upper division elective requirement.
- Action Items:
    - ~~Could you please provide further justification as to the rationale for changing the tracking GPAs? Is there anticipation for students being tracked out of major?~~ Adjusting the tracking GPAs will allow more guidance for students regarding the academic rigor of the program.
    - ~~Could you please explain the documentation attached to this approval request? If this is approved, which document would be implemented in the catalog?~~

DRAFT

        - ~~For example, the review subcommittee was confused as to why there were 2000-level courses that were eliminated from critical tracking entirely (i.e. ISS 2105).~~
        - The removal of entry level courses from critical tracking was made to allow for greater flexibility for students to declare a PPEL major after their first year. A list of three courses (ECO2013, STA2023, ECO2023) was included to allow to flexibility for summer courses for students interested in a PPEL major after their first year.
        - If the request is approved, the "PPEL Model Plan Revision 02.26" and "PPEL Revised Critical Tracking 02.26" will be implemented in the catalog.

- https://secure.aa.ufl.edu/Approval/reports/22645
- Summary: Drop Professional electives from 14 to 9 to include more skills based curriculum.
- Action Items:
    - ~~The review subcommittee felt somewhat confused by the usage of "recommended" at the end of the courses in the model semester plan and have therefore suggested the following for the benefit of the students:~~
        - ~~Change THE 2000 or ARH2000 in Semester 1 to "State Core Humanities".~~ Updated to reflect this request.
        - ~~Change MUL2010 in Semester 2 to "General Education Humanities and International".~~ Updated to reflect this request.

32. **Medical Geography UF Online Proposal** **[CA]**
    - https://secure.aa.ufl.edu/Approval/reports/22561
    - Summary: Add a current specialization in Medical Geography (GPY_BA02) to an existing UF online major (Geography).
    - Action Items:
        - Please upload a catalog copy that reflects the requested changes for the UF Online version. The request currently cites differences between the UF Online and residential versions, so documentation is needed to implement those updates. To do this, please copy the residential content from the current catalog and track the specific changes you would like applied to the UF Online version, then upload that document to the request.

    - https://secure.aa.ufl.edu/Approval/reports/22461
    - Summary: Modify the curriculum of the BA in Sustainability Studies to change the categories for approved electives, add a category of skills and competencies, and add an experiential learning requirement. Proposed modification changes required major credits from 33 to 30-34.
    - Action Items:
        - ~~As this request contains a document to update the ALC, please ensure that an additional request to update the ALC is submitted to the Approval System.~~ A request to modify the ALC and SLOs for the BA in Sustainability Studies has been submitted to the approval system. (https://secure.aa.ufl.edu/Approval/reports/22687)
        - ~~The review subcommittee raised some issues with the Critical Tracking:~~

DRAFT

- ~~"1 tools course" and similar shorthand phrases that do not match the full name of the course categories in the semester plan. This may be confusing to the students, so could you please have these match?~~
- ~~The courses that will satisfy the *Additional Foundations, Theories and Applications*, etc. groupings are not in the critical tracking or elsewhere in the submission. These should be listed for both governance reasons and for the ease of student understanding.~~ Requested revisions have been made to the critical tracking document for this curriculum modification. - Action Items:
  - ~~Please clarify the course reading. Is it recommended or required? Will students need to purchase the text?~~ Recommended and excerpts provided in Canvas (now noted on Syllabus)
  - ~~Please clarify the grading and assessment of posts, quizzes, and assignments. For example, are all quizzes worth the same number of points?~~ Point value for all graded work is now noted on syllabus.
  - ~~Is this course in-person or online? There is a class location and hours listed on the syllabus, but instructions within the syllabus make it sound like a fully online course.~~ Online course, removed class location and hours.
  - ~~Is attendance required?~~ Kept attendance policy since it refers to assignment deadlines. Course is online, asynchronous so attendance is not required.
- Discussion Items:
  - ~~Recommend clarifying the AI policy to state that if a student is found to have used AI inappropriately, it will be considered an honor code violation~~

    - Action Items:
        - ~~Please add the course description and the listed pre-reqs on the syllabus to match the change requested in the approval system (e.g., list only RTV 4301C) to the syllabus.~~ Course description added. New prerequisite added. Old prerequisite removed.
    - Discussion Items:
        - ~~Please clarify the attendance policy, especially in light of the requirement that students have a weekly full-day shift in the newsroom. Is attendance required? What if a student's schedule does not permit a weekly full-day shift?~~ The course description already references a day-long, weekly newsroom shift. This course is an advanced "capstone" type course to assist students building their portfolio necessary for a job. The course had traditionally been department controlled so student availability could be verified. A sentence clarifying that the UF Attendance Policy does apply to this course component was added for clarity. Traditionally, the instructor permits make ups based on that policy, but the addition helps for clarity/transparency.

    - Summary: Create new interdisciplinary course open to all majors, ADV/COM XXXX - Beyond the Human: AI, Hybrid Minds, and the Changing Nature of Communication. Form lists recommended prefix as COM.
    - Action Items:
        - ~~Instructor contact information and office hours are required per University policy~~. The syllabus now includes the instructor's contact information and office hours in accordance with UF syllabus policy:
            - Instructor name, office location, phone number, and email
            - Office hours (Tuesday/Thursday 2:00–4:00 pm).
        - ~~Please revise / clarify the grading scale. The weights currently sum to 110%~~. The grading structure has been revised to ensure that:
            - The total weight equals 100%
            - The number and structure of assignments are clearly specified
            - Assignments now include:

DRAFT

- Weekly Reading Reflections (10 reflections)
- Seminar Participation
- Student-led Seminar
- Midterm Essay
- Final Research Paper
- Final Research Presentation

- ~~Please clarify the different expectations for undergraduate vs. graduate work. Currently, it appears all students are held to the same expectations, which does not conform with University policy for co-listed courses.~~ The course is now clearly identified as an upper-level undergraduate course. The syllabus specifies that graduate students may enroll with instructor permission, but the course is not proposed as a graduate cross-listed course.
- ~~As this is a request for an undergraduate course, only the undergraduate curriculum will be reviewed by the curriculum committee; an additional request is needed for the graduate curriculum to be reviewed. Could you please provide the approval system request for the graduate level course?~~ The course is now clearly identified as an upper-level undergraduate course. The syllabus specifies that graduate students may enroll with instructor permission, but the course is not proposed as a graduate cross-listed course.
- ~~The review subcommittee was somewhat confused on the grading and assessments for individual assignments. Could you please respond to the following comments:~~
  - ~~What is description of, number of, and grading breakdown of the assignments? (E.g. how many reflections and what is point value of each? What does student-led seminar mean? Does each student lead a class session? What if there are more or fewer students than there are sessions? How is this assessed for 20% of grade? Are the in-class activities the reflections that are graded?)~~
  - Detailed descriptions have been added explaining the purpose, format, and expectations for each assignment. The student-led seminar structure has been clarified (each student leads one session; pairs may lead if needed).
- Learning objectives have been revised using measurable verbs to better articulate student learning outcomes.
- The syllabus now includes the required UF policy link: https://go.ufl.edu/syllabuspolicies

- Discussion Items:

- ~~Recommend revising the course description in accordance with University best practices (https://curriculum.aa.ufl.edu/policies-and-guidelines/uf-course-description-best-practice-/).~~ The course description has been revised to follow UF course description best practices, providing a concise overview of the course focus and learning outcomes.
- ~~Please clarify the pre-reqs. Could a student with sophomore standing enroll even if they have not taken one of the listed courses? Approximately how many students outside the CJC would have taken one of the listed upper-level courses?~~ NOTE: Pre-req courses removed from revised syllabus.

- https://secure.aa.ufl.edu/Approval/reports/22500
- Summary: Create new Quest 3 course, GLY 4XXX Experiential Earth Science.
- Action Items:
    - ~~Please update the course description to remove "mechanism for course credit". The course description should describe the content of the course, and not how it is graded.~~ There is precedent for using this and similar phrasing in comparable experience-focused courses, for example:
        - ANT4940: "Mechanism for course credit with an internship, field school ."
        - BCN4956: "Provides a mechanism by which coursework taken …" (almost all 4956s say this)
        - ISS4940: "PPEL majors may earn academic credit for completing a relevant internship"
    - ~~Please add a description of expected work hours related to enrolled credits~~. This is the same issue with Quest 3 credits that has stalled similar proposals. We have not received further guidance on how to proceed.
- Discussion Items:
    - ~~Could you please clarify if 135 hours of work is required even if a student is taking the course for minimal (e.g. 0 or 1) credit?~~ As above, our instructions for Quest 3 coursework indicated that 135 hours are required, regardless of credits enrolled. We were told to continue submitting these requests so that we are ready for the launch of Quest 3, so until we are told otherwise, our proposals will continue to contain this wording.
    - The review subcommittee recommends adding additional verbiage to the AI statement that further explains if the use of AI is acceptable or, if it's not, that it is an honor code violation.

    - https://secure.aa.ufl.edu/Approval/reports/20419
    - Summary: Quest temporary course looking to gain a permanent course number.
    - Action Items:

- ~~There are only 14 weeks of content in the weekly topics, there should be 15. Please update your syllabus accordingly.~~ RESPONSE: There are 14 weeks of content in the semester. The Action Item must want me to include Spring Break or Finals Week, and I'm not sure which one. I put a note in Week 15 as "Finals Week"

- Discussion Items:
  - ~~Please specify that the "make-up" policy and "participation" section (specifically excused absences) of the syllabus are consistent with the UF attendance policy found here: https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/~~ I tweaked these to include reference to the UF policies.

100. **Spider Biology Lab- Undergraduate (ENY 3830L): Upgrade to 4000-level** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/22609
- Summary: Change ENY 3830L to ENY 4xxxL and remove ZOO 4926 as a co-requisite.
- Action Items:
  - ~~The UCC Review Subcommittee indicated that the justification to relevel a course should focus on the more advanced contents, rather than just the rigor or desire to co-list with a graduate course. Please provide additional evidence of why it should be a higher-level course.~~ RESPONSE: The form has been updated to include a much more detailed rationale for our requested change, highlighting the advanced nature of the course's content.
- Discussion Items:
  - ~~The UCC Review Subcommittee indicated that the student learning objectives appear to be for lower-level courses and should be updated.~~ RESPONSE: We respectfully disagree. The SLOs as currently written span 4 different levels of Bloom's taxonomy including application and creation. Dr. Auletta will be in attendance at the March UCC meeting and is happy to share more about what is required for spider identification.

- https://secure.aa.ufl.edu/Approval/reports/22479
- Summary: Add WIS 4601C as a prerequisite for WIS 4501.
- Action Items:
  - In the Preprofessional wildlife track, the proposed prerequisite is in semester 8 and the course is in semester 6. A curricular change is required before this request can be approved.
- Discussion Items:
  - Is the course "complementary content" optional or required?
  - Are the lab group projects the same as the group exercises worth 20% of the grade?
  - Please provide a breakdown of the value for each quiz, exercise, and exam. There are a lot of components factoring into each student's grade in this course and they should be clear in the syllabus.
  - There did not seem to be a statement in the syllabus regarding attendance; could you please clarify if attendance is required or expected?

- https://secure.aa.ufl.edu/Approval/reports/22506
- Summary: Change title of IDS2935 Women Changing Society to IDS2935 Musical Changemakers.
- Action Items:
    - ~~The review subcommittee requests clarification regarding the purpose of this request. Could you please answer the following questions?~~
        - ~~Is this a request to create a Quest permanent course or is this a request to modify an existing Quest temporary course?~~
        - ~~Was Quest consulted on the changes or will that happen after UCC approval?~~
        - The purpose of this request is to broaden the scope of course content and to fit within the theme. This is modifying an existing quest temporary course. I also uploaded email correspondence from Quest 1 Leadership confirming they have been consulted.
    - ~~The Quest 1 themes have changed since this course's inception. Could you please update your syllabus with one of these updated themes~~.
        - NOTE: Revised syllabus uses the updated theme "Great Conversations".
    - ~~Please ensure that it is clear that the attendance/late work policy accounts for excused absences/late submissions.~~
- Discussion Items:
    - ~~The review subcommittee suggests revising the proposed course description to fit best practices~~.
        - NOTE: Revised syllabus's course description is as follows: "How have musicians throughout history used their art to affect social change? Beginning with Medieval figures such as Hildegard von Bingen and continuing through popular genres of today, this course examines how artists across centuries have expressed identity and shaped cultural movements. Students will gain a deeper understanding of how musical changemakers have inspired social progress through their work and created pathways for future generations."

DRAFT

- https://secure.aa.ufl.edu/Approval/reports/20765
- Summary: Change course title and revise course description to better align with the course content
- I reviewed the comments for the requests I submitted and revised the syllabuses for all action items. I addressed many of the discussion items as well. The revised syllabuses were uploaded yesterday afternoon to the approval system.
- Action Items:
    - ~~Office phone number is required per UF Syllabus Policy.~~ Added.
    - ~~Recommend updating the link under the "Shared Policies" section to: https://go.ufl.edu/syllabuspolicies .~~ Added.
    - ~~Please clarify the anticipated costs for the 1-month Fab Lab laser membership and required software (Rhino + Grasshopper). Syllabi must contain materials and supplies fees per UF Syllabus Policy.~~ Added.
    - ~~Please clarify the following question from the review subcommittee:~~
        - ~~"The syllabus states, "To pass the course, all modules must be completed at a passing level (60% or better) AS WELL AS the cumulative course grade." - so student can get an "E" technically by getting a 60% overall but pass? (E <61% per scale)"?~~ This statement has been revised to state that the passing level is 61% or better.
- Discussion Items:
    - ~~Please clarify the attendance policy and how it impacts the student's grade. The attendance policy states that there is a "...a loss of up to 15% over [*sic*] your overall score for three or more unexcused absences", while the grading breakdown indicates that attendance is worth 10% of the overall grade.~~ This statement has been revised and now indicates that the loss is up to 15% of the student's overall attendance score.
    - ~~Syllabus states that "[m]issing or late work will be graded down at 10% of the final assessed grade per day". Does this refer to the assignment grade or the overall course grade?~~ This has been clarified in the syllabus; statement now reads "Missing or late work will be graded down at 10% of the final assessed grade per day for each late assignment".
    - ~~In the Course Evaluation section, please provide more details regarding how the module assignments will be assessed and graded.~~ Details have been added.

(E <61% per scale)"?~~ This statement has been revised to state that the passing level is 61% or better. However, there is a sentence on page 5 that states "To pass the course, the cumulative course grade must be 60% or better", which does not match the grading scale. The grading scale indicates that <61% is an E.
- Discussion Items:
    - Syllabus states that "[m]issing or late work will be graded down at 10% of the final assessed grade per day". Does this refer to the assignment grade or the overall course grade?

DRAFT

- ~~Please clarify the grading breakdown. (1) The summary breakdown for course subject weighting table shows the Environmental Tech Module weighted at 36% (which seems correct as all of the listed percentages in the summary table sum to 100). However, at the very bottom of page 5 of the syllabus, that same module is listed as 40% of the course grade.~~ This has been corrected in the revised syllabus. ~~(2) Syllabus states "Four unexcused absences can result in failure of the course (see grade breakdown above)." However, the grade breakdown shows attendance weighted at 8% of the overall grade. Please clarify how the loss of 8% of the grade results in failure.~~ This statement has been revised to indicate that four unexcused absences can result in failure of the attendance portion of the course.

DRAFT

- I reviewed the comments for the requests I submitted and revised the syllabuses for all action items. I addressed many of the discussion items as well. The revised syllabuses were uploaded yesterday afternoon to the approval system.
- Action Items:
    - ~~Please clarify the intended new title of the course. The current form lists the proposed course title as "Building Tech 1", but also lists the proposed transcript title as "Integrated Tech 1". These proposed course title and the proposed transcript title should match.~~ The form has been revised so that proposed course and transcript titles match.
    - ~~Two of the faculty do not have any office hours listed as required per UF Syllabus Policy.~~ Added.
    - ~~Please clarify the following question from the review subcommittee:~~
        - ~~"The syllabus states, "To pass the course, all modules must be completed at a passing level (60% or better) AS WELL AS the cumulative course grade." - so student can get an "E" technically by getting a 60% overall but pass? (E <61% per scale)".~~ Statement has been revised to indicate that students must have a 61% or better to pass.
- Discussion Items:
    - Please clarify how assignments will be assessed and graded. There is currently no breakdown of the number of assignments and the points / percentage values for the course. There is a percentage breakdown per module, but not per assignment. There are also no assignment descriptions.
    - ~~Please clarify how the attendance portion of the overall grade is assessed. How are unexcused absences accounted for and/or how many points are deducted for an unexcused absence?~~ Details added in "Attendance" section.
    - Does participation also count toward the attendance portion of the overall grade, or is it attendance only?

111. **ARC4310C - Building Information Modeling** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/20760
- Summary: Update course prerequisites due to existing course (ARC2180) no longer being offered.
- I reviewed the comments for the requests I submitted and revised the syllabuses for all action items. I addressed many of the discussion items as well. The revised syllabuses were uploaded yesterday afternoon to the approval system.
- Action Items:
    - ~~Office phone number is required per UF Syllabus Policy.~~ Added.

DRAFT

- ~~The prerequisite course listed on the syllabus should be updated from ARC2180 to "ARC2491C or instructor permission".~~ Updated.
- ~~The attendance section states "Students who miss class without their Instructor's prior approval will receive a grade of zero on the missed assignment." - This statement does not align with University policy for excused absences (https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/). Recommend revision to reflect University policy.~~ Revisions made and link to UF policy added.

- Discussion Items:
  - Could you please clarify if HWCOE still has the "Inclusive Learning Environment" statement. If not, please remove accordingly.
  - The review subcommittee recommends adding greater detail in the methods by which student grades are determined. There was a bit of confusion surrounding the frequency of in-class activities, the coverage of exams, and if they are cumulative.

- Action Items:
  - ~~This syllabus contains old honor policy language: "Furthermore, you are obligated to report...". Please update the honor policy with the language found here.~~
  - ~~Please update the Academic Resource links at the bottom of this syllabus with the information found here. Or, simply replace the sections with a sentence similar to the following: "Information about grading and attendance policies, support for students with disabilities, course~~

- https://secure.aa.ufl.edu/Approval/reports/22446

DRAFT

- Summary: Prereq. modification for EAS 4101: Aerodynamics. Replacing COP 2271 with MAS 3114 and COP 2273.
- Action Items:
    - ~~Could you please provide an explanation as to why EAS 3020C was removed as a prerequisite option?~~ The course EAS 3020C does not exist and therefore, we have no choice but to remove it as a prerequisite.
    - ~~Could you please clarify if EAS 3020C was changed on the curriculum change request?~~ I do not understand the comment about EAS 3020C in the curriculum change request. The course is not in the curriculum and not in the curriculum change request.
- Discussion Items:
    - None
- *NOTE: Curriculum changes were submitted via requests 22451 and 22452. These requests are on this agenda in the "Programs" section and are recommended for approval.

118. **EML 3301C: Course Modification** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/22445
- Summary: Prereq. modification for EML 3301: Mechanics of Materials Laboratory. Replacing COP 2271 with MAS 3114 which has a suggested prereq COP 2273. Additionally, the writing department advised us to add (back) the option for ENC 3246.
- Action Items:
    - ~~Could you please provide an explanation for the following comment from the review subcommittee?~~
        - ~~"Is MAS 3114 now needed for EML 33012C, or is this to make sure students take the courses in the correct sequence for the major?"~~
        - EML3301C requires the student to perform computations in a structured way using modern computer techniques. Computational student outcomes from course MAS3114 is replacing similar ones formerly found in COP2271 (Matlab).

DRAFT

- ~~The review subcommittee requires an accurate grading scale for this course, not an example. As this course has been taught before, the review subcommittee would like to see the actual grading scale that the professor uses for the class.~~
- ~~Could you please clarify whether this final is cumulative?~~

- ~~Discussion Items:~~
  - ~~For the course objectives, the review subcommittee recommends using terms other than "understand" and use terms that are observable indicators of successful performance of learning outcomes~~.
- Requested updates have been made. The example verbiage was an artifact of the college syllabus template. The one in the syllabus is accurate.

120. **EEE4310 Change Prerequisites** **[CA]**

- https://secure.aa.ufl.edu/Approval/reports/22180
- Summary: Remove one of the course prerequisites (EEE 3308C) to make the course more accessible to students in computer engineering.
- Action Items:
  - Please clarify how much participation is weighted in the overall course grade.
  - Please add the instructor's office hours to this syllabus.
  - There is a policy about participation grades, but no participation grade is outlined in the evaluation section. Please revise your syllabus accordingly.
  - The review subcommittee found that some of the make up language in this syllabus goes against UF make-up policy, as it seems to require advance notice which would not allow for emergencies that UF would consider excused. Please update your syllabus accordingly.
- Discussion Items:
  - The review subcommittee suggests adding additional information to the list of assignments in the "Evaluation of Grades" section. Information pertaining to what type of assessments will occur, how exams will be administered, and the format of the exams would be beneficial to the students.

121. **CHM3217 - Organic Chemistry/Biochemistry 1** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/22404
- Summary: Change title to Accelerated Organic Chem.
- Action Items:
  - ~~The review subcommittee made the comment that there is no need to list "one-semester" in the course description, as all UF courses are a single~~

DRAFT

~~semester by default. Calling this out may cause confusion for some students (e.g., "What is different about this course? I don't understand. I guess I should ask my advisor."). Could you please remove this language?~~ Usually organic chemistry is taken as a two-semester sequence, organic 1 followed by organic 2, and this course teaches the content in one semester, which is not the typical route. The description is emphasizing that one semester it is equivalent to the typical two semester sequence (CHM3217 = CHM2210+CHM2211). This is why we want the name to also reflect that this is an accelerated course. The current course description contains this same language.

    - NOTE: The course description has been revised in the approval system form and on the syllabus to indicate that the course is taught on an accelerated schedule.

    - https://secure.aa.ufl.edu/Approval/reports/22276
    - Summary: Add / create an undergraduate section / course for MCB6318
    - Action Items:
        - ~~Could you please clarify if this new course will be offered at the same time as the graduate course? It is different credits and has a different number of weeks.~~ Yes , It is offered at the same time, it will just not stop mid-March like the graduate course but continue until the end of the semester.
        - ~~Could you provide justification for the prerequisite being "Grade A-/A in BSC4434c?"~~ This is a difficult fastpaced class even for graduate students, my experience in teaching both these classes is that only. Only students that have performed very well academically in BSC4434c also perform well in this course.

DRAFT

- ~~The UCC Review subcommittee determined this violates the UF Attendance policy and is requesting it be revised.~~
    - ~~The syllabus states "No extension for the module assignments will be given without prior approval by the instructor and only for catastrophic events (such as hurricanes). Because of the peer review process and the tight deadline for course grade submission, all deadlines for the Final project (four updates, 3 peer reviews and final submission) will be strictly enforced with NO possibilities of extension."~~ Statement deleted in updated syllabus
- Discussion Items:
    - ~~The rationale has the course as an elective to the bioinformatics minor which would need to be a separate request to add it.~~ We are in process of preparing the request to change the minor

- Summary: Creation of an undergraduate (4000) level combination course in the college of engineering. This course is to be used for Bachelors, Engineering Innovation Minor, Engineering Innovation Certificate, and Electives.
- Action Items:
    - ~~Office hours cannot be only "By appointment". There must be a set time for office hours. Please adjust your syllabus accordingly~~. Office hours have been set in the document
    - ~~The review subcommittee does need to see this course's finalized schedule of weekly topics before this request can be approved. Additionally, there are only 13 weeks of content that was provided in the syllabus, but if this is a Spring course, there should be at least 14 weeks of content, and if it is a Fall course, there should be at least 15 weeks of content~~. The course schedule has been updated as requested.
    - ~~The review subcommittee found that the following phrase under the "Evaluation of Grades" section of this syllabus is against UF make up~~

- Summary: Creation of an undergraduate (4000) level combination course in the college of engineering. This course is to be used for Machine Learning for Electrical Engineers.
- Action Items:
    - Could you please clarify the following questions that the review subcommittee posed:
        - Will this course be an elective?
        - Is there only required software and no required text?
        - Is attendance required for this course?
- Discussion Items:

- https://secure.aa.ufl.edu/Approval/reports/21927
- Summary: Create new course number for Autonomous Robots course, which is a co-listed undergraduate (EEL4XXX) and graduate (EEL5XXX) course.
- Action Items:
    - This syllabus contains old honor policy language: "Furthermore, you are obligated to report...". Please update the honor policy with the language found here.
    - The review subcommittee found that the following phrase under the "Evaluation of Grades" section of this syllabus is against UF make-up policy: “However, there will be no make-up for in-class assignments, mid-terms, finals, and homework assignments. The in-class assignments are graded best two out of three, so you can miss at most one without losing points.” Please revise your syllabus accordingly.
    - Could you please clarify whether the final exam is cumulative?
    - There was some confusion surrounding this course's prerequisites:
        - The prerequisites currently read: "1. EEL 4744C (Microprocessor Applications) or EEL 4712C (Digital Design) & 2. EEL 3850 (Data Science for ECE) or EEL 3834 (Programming for Electrical and

132. **ENY4660- Medical and Veterinary Entomology** **[A]**

- https://secure.aa.ufl.edu/Approval/reports/22571
- Summary: Change ENY 4660 (undergraduate course) from 2 to 3 credits based on the amount of material and work required for the course and to match the co-taught graduate version of the course that is already listed as a 3 credit course.
- Action Items:
    - The catalog states that this course also has ENY 3005L as a prerequisite, but it is not on the syllabus. Should the syllabus reflect the following: "ENY 3005 and ENY 3005L"?
- Discussion Items:
    - The review subcommittee suggests stating a cap on the extra credit points. They also suggest removing template language from Additional Information section.
    - Overall, the review subcommittee thinks that this course looks strong.
