Current Curriculum for Major See attached

Proposed Curriculum Changes • Health Studies specialization - reduce internship credits from 15 to 12

- Community Health Promotion specialization – reduce internship credits from 15 to 12
- 3 credits from reduction added to semester tracking as additional HSC specialization course

UF Online Curriculum Change Yes

Pedagogical Rationale/Justification Reduction rationale:

- Alignment with other programs within our college
- Alignment with college internship guidelines
- Alignment with other programs at the University
- Alignment with similar programs – U Illinois, Texas A&M
- Consistent with UF full-time credit requirement (12 credits = full-time status)
- Health Studies: part-time internship is 6 credits; full-time would be 12

3 credits added to specialization courses:

- Increased training in content area
- Increased preparation for the CHES exam
- Exit survey data indicates students would like more credits to use toward HSC specialization courses

Impact on Enrollment, Retention, Graduation We don't anticipate any impact on enrollment, retention, or graduation

Assessment Data Review Proposed change does not impact associated SLOs

Academic Learning Compact and Academic Assessment Plan Minor wording changes:

15 credit internship ----- changed to 12 credit internship

Bi-weekly report ----- changed to weekly report

Catalog Copy Yes
