UF Faculty as National Thought Leaders in Higher Education

- Faculty expertise drives national stature
- Showcasing trusted experts builds and sustains reputation

Goal:

• Create communications platforms that strengthen faculty expert reputation

A Robust Content Ecosystem

1. Identify Opportunities

Identified through campus monitoring and/or awareness of faculty scholarship/research

2. Develop & Execute Ideas

Understand the scale and possible application(s) of the opportunity, then execute

3-A. Media Outlets

Story and/or expert pitched to most suitable news outlets (national vs. regional vs. specialty)

3-B. UF Channels

Story and/or expert featured in rich content formats (video, podcast, etc.) and published to owned channels (UF News, social media, etc.)

3-C. Direct Outreach via Digital

Stories shared with higher education leaders, government officials, advocates, national influencers via campaigns (email, social media, special publications, etc.)

4. Measure & Optimize

Constant analysis of performance across paid, owned and earned channels leads to continuous strategy refinement to maximize efficacy

A Robust Content Ecosystem
